The Mel Bay Banjo Method (5 String) Frank Bradbury, 1967

Mel Bay's Fun with the Banjo Mel Bay, 1962

Modern 5-String Banjo Method Grade 1 Alan Munde, 2015-12-16 This method is designed for learning the finger style five string banjo in a larger musical context than previous single style based methods. The Modern 5 String Banjo Method builds the theoretical and technical foundations needed to play in many styles. Beginning with a thorough grounding in the scales and chords coupled with well thought out fingerings in the keys of C, Am and G, the student is presented with melodies, chord melodies, the folk strum arpeggios and the beginnings of the bluegrass banjo style. The varied and beautiful musical studies and exercises come from many traditions and offer a logical and organic approach to learning the five string banjo, leading the student to an authentic understanding of the processes and techniques needed for creating music on the five string banjo. The Modern Method for Five String Banjo is in tablature only.

Banjo Workshop Mike Bailey, 2020-07-28 Banjo Workshop was written with four important areas of the 5 string banjo technical and artistic development in mind: picking technique, personal style, creativity and awareness of the instrument's key and tuning potential. Picking technique: Studies in Section 1 will equip you to dissolve the inhibiting notion that some songs are unplayable on the 5 string banjo. Any song is playable if the necessary technique has been learned and developed to accommodate it. Personal style: In Section 2 you will first explore several popular 3 finger sub styles, seeing how each evolved and how they are all often intermixed within a given performer's own personal style. Through subsequent examples you will be made aware of style potential and the artistic necessity of developing your own personal style. Creativity: Through style development and improvisational skills taught in Section 3 you will begin to think and perform less like a mechanical follower and more like an artistic ground breaker. You will learn to modify arrangements; further you will learn to create your own arrangements. Exploration of Non G Keys and Tunings: In Section 4 you will find that playing in keys and tunings other than G are no less fun and no more difficult than playing the familiar G bluegrass tuning. Six non G tunings will be explored, involving ten solos including major, minor and modal tunings. The overall effort is to make you aware that you don't have to be a technical whiz nor a speed king in order to be a musical artist. If you can add something new and different, something enjoyable to listen to, you are an artist, even if you are not yet an advanced level player.
