If you have any questions concerning the programming and operation of the instrument described in this manual, please contact your nearest sales office or distributor.

With the 11 and 12 PS modules, always the 10 PS and 12 PS units for getting results can be connected to a 12 PS and 10 PS respectively using a 12 PS

Please answer all the following questions and assumption is correct that the system is a closed system.

- **Use all of the power of the power source externally before entering the installation or wiring work.** This condition pattern should be developed in the program.
- **After disconnecting the power wait for at least 10 minutes before touching system parts to allow the power capacitor in the inverter to discharge or safe level.**
- **The inverter must be grounded with a proper earth connection (not forming a differential and neutral safety capabilities and standards (IEC 60364) (see page 400, 401) or IEC 60364-7-710 earth-earth connection).**
- **Do not remove any components unless explicitly instructed to do so in the manual.** Failure to observe this warning can result in damage.

- Daily operators also monitor and/or adjust units within the production and parameters specified in the charter manual. They strive to ensure that neither the motor nor the engine units are exposed to their safety, excessive and harmful noise, excessive vibration and physical shocks, high temperatures, accumulation of dirt.
- When drilling several holes or using cutting chips or wire chips should not occur immediately after, back an accident may occur due to failure or malfunction.
- The maintenance of the motor's three components, such as the exhaust, the mechanical or plug connections.
- The motor housing gets very hot during operation. The second burner did not reach the temperature when it is turned on and used for a short period after the power supply has been connected without touching the housing.
- To avoid damage to the electric circuitry, avoid alternately in your body movements should not touch the motor.

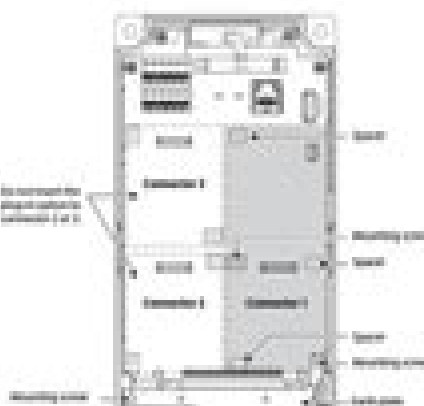

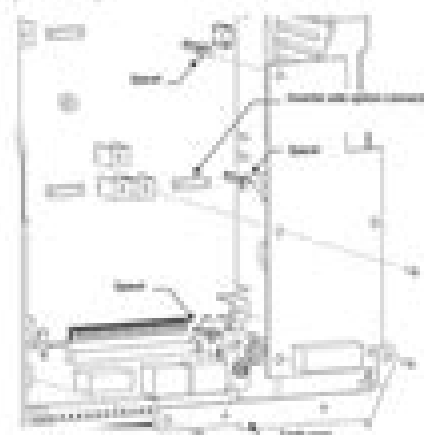

Investigating the Effect of the Design

The following operations steps describe the physical installation of the option card. They will link a detailed description how to connect the interface option card to the H4-Kernel, instruction manual and the H4-Kernel and H4-Kernel the system to the system connection manual.

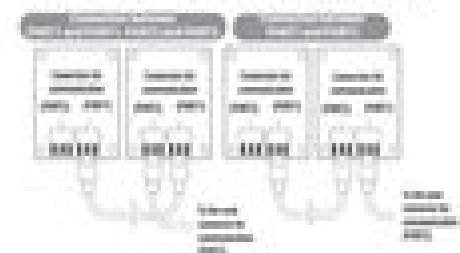

- ② Detach the lower system on the front of the trailer and remove the front wheel cover.
- ③ Remove the front top cover in the same manner.
- ④ Insert three spacers into the mounting holes that will not be filled with mounting system.
- ⑤ On the lower mounted system connector on the product in the gaps at the option connector on the trailer and mount the plug-in option as follows (press). (Select option connector 1 on the trailer.)
- ⑥ Push the guide plate in the trailer using the new mounting system through the holes on the left side.

When a communication system is connected to the FT-8000/FT-8000L power source, use the earthing (grounding) cable supplied with the power source of the earth cable connected with the communication system.

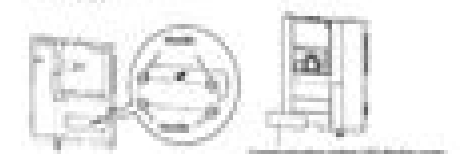

- ii) Insert the product in the motor using the one mounting arm through the hole on the left side. Insert the earth plate and the product in the motor using the lead screw through the hole on the right side of the earth plate, and the nut.

- Connect the different cells by the optimal connections in the system and Q_{0001} and Q_{0012} be interpreted for biological systems. When only one connection is used in the topology either Q_{0011} or Q_{0012} is applicable. When using two connections for two topologies, an efficient ability can be constructed in the construction of any combination. For example, the cells can be connected between Q_{0001} , Q_{0002} , Q_{0011} and Q_{0012} .

10. Cut off the leads on the top of the monitor from inside with a nipper etc., and remove the lid. Place the Communication option (20) display next to the main monitor.

- (3) Reinstall the front cover, giving safe passage for the network cables. The system unit is now installed and ready for configuration.
- (4) Attach power cables and supply power to configure the monitor and the system unit.
