Anand Halve, 2005-11-05 This book is a step by step guide to producing a sound foundation for advertising one that will serve as the springboard to inspire powerful creative expression Rich in cases from the evolving Indian context Planning for Power Advertising offers an understanding of how strategic advertising is created It takes the reader through cases and analyses of what worked or did not work in the marketplace Anand Halve involves the reader throughout in exercises with Action Points at the end of most chapters an approach that brings alive the concepts within and helps readers discover the theory in practice For advertising professionals this is a manual to create a robust advertising brief For students of advertising and marketing Planning for Power Advertising is a simulation exercise from which they will learn how to apply the principles that will help them in their future careers And for professionals in areas related to advertising such as media event management and PR this book provides an insight into how the strategic underpinning of advertising is built *China Briefing's Business Guide to the Greater Pearl River Delta* ,2004 *Road and Track* ,1998-09 *Displacing Human Rights* Adam Branch, 2011-06-01 Today Western intervention is a ubiquitous feature of violent conflict in Africa Humanitarian aid agencies community peacebuilders microcredit promoters children s rights activists the World Bank the International Criminal Court the U S military and numerous others have involved themselves in African conflicts all claiming to bring peace and human rights to situations where they are desperately needed However according to Adam Branch Western intervention is not the solution to violence in Africa but instead can be a major part of the problem often undermining human rights and even prolonging war and intensifying anti civilian violence Based on an extended case study of Western intervention into northern Uganda s twenty year civil war and drawing on Branch s own extensive research and human rights activism there this book lays bare the reductive understandings motivating Western intervention in Africa the inadequate tools it insists on employing its refusal to be accountable to African citizenries and most important its counterproductive consequences for peace human rights and justice In short Branch demonstrates how Western interventions undermine the efforts Africans themselves are undertaking to end violence in their own communities The book does not end with critique however Motivated by a commitment to global justice it proposes concrete changes for Western humanitarian peacebuilding and justice interventions as well as a new normative framework for re orienting the Western approach to violent conflict in Africa around a practice of genuine solidarity A key strength of the book is its ability to analyse and reveal common patterns in seemingly disparate and complex empirical instances of counterproductive human rights interventions in Uganda T his book should be required reading for all those working on various themes in Africa today The Journal of Modern African Studies This book provides a pessimistic but much needed critique of the history of foreign intervention in Northern Uganda Responsible discussions of foreign policy must consider the ways in which great power politics can hurt people in the name of protection this book is an
