The Practical Art of Divine Magic Patrick Dunn, 2015-08-08 The ancient world of Egypt Greece and Rome was home to a set of magical and spiritual technologies called theurgy that unite the practice of magic with the aims of religion Theurgy or godwork is the art of creating a stronger bond between the theurgist and his or her deities The results of this stronger bond were imminently practical stronger magic more meaningful existence and a better life With the fall of Rome these techniques faded into obscurity and many of them were lost forever This book revives restores and reinvents these practices for a contemporary pagan or magical practitioner A mixture of scholarly research and examination of source texts and daring experimentation and extrapolation leads to a complete and workable system that can inform a variety of practices all presented in a relaxed lighthearted and readable way Whether you practice witchcraft ceremonial magic or chaos magic you can benefit from the practice of theurgy You will learn techniques to create stronger bonds with divine forces call up and communicate with spiritual beings summon a magical assistant create statues imbued with divine spirit and master your own mind The ultimate goal is union with the divine but theurgy is a practical path and every step on that path is designed to improve your life

Maritime Economics 3e Martin Stopford,2008-12-19 Combining a sophisticated historical and theoretical analysis of the shipping industry with a practical explanation of all aspects of the shipping industry this third edition is essential reading for students and professionals with an interest in this area Thinking through China Jerusha McCormack,John G. Blair,2015-08-01 In this innovative book Jerusha McCormack and John G Blair introduce China on its own terms By explaining ten key concepts that frame the way most Chinese people think about the world they compare these terms which don t translate readily into English with the ways most of us as Westerners think The book then poses four questions that Westerners routinely ask about China But rather than answer with Western assumptions the authors respond using these ten Chinese key words Not surprisingly the answers differ in startling ways from standard Western responses This intensive bridging work allows those without deep knowledge of China to understand the very different perspectives to be gained by looking at the world through Chinese eyes As each of the ten words maps out new territory the premises of a very dissimilar but equally coherent world view gradually emerge Creating a cultural cartography through both text and image the authors provide readers with a vivid sense of what is uniquely Chinese about China **EXPLORING CHÁN** Chuan Zhi,2025-03-01 Exploring Ch n A Journey into the Heart of Chinese Buddhism Chuan Zhi s Exploring Ch n is a profound and comprehensive guide to the history philosophy and practice of Chinese Ch n Buddhism Blending rigorous scholarship with philosophical
