Order And Justice In International Relations:

Order and Justice in International Relations Rosemary Foot, John Gaddis, Andrew Hurrell, 2003-02-13 The relationship between international order and justice has long been central to the study and practice of international relations. For most of the twentieth century states and international society gave priority to a view of order that focused on the minimum conditions for coexistence in a pluralist conflictual world. Justice was seen either as secondary or sometimes even as a challenge to order. Recent developments have forced a reassessment of this position. Firstly many trends in the 1990s increased expectations of greater justice within a liberal and liberalizing international order for example in relation to human rights humanitarian intervention collective security and self determination. Second globalization deepened the sense of ideational and material interdependence prompting acknowledgement that we co exist in a single world and that effective solutions to shared problems cannot be achieved without a concern for justice especially as the negative aspects of globalization have become more evident. Third claims to justice and critiques of the existing order have been forcefully pressed by an increasing range of non governmental and other groups within transnational civil society. These three developments suggest movement towards a greater solidarist consciousness and ambition based primarily on a liberal vision of the relationship between order and justice. This book sets current concerns within a broad historical and theoretical context explores the depth and scope of this presumed solidarism amidst the difficulties of acting on the basis of a more strongly articulated liberal position and underscores the complexity and abiding tensions inherent in the relationship between order and justice. Chapters examine a wide range of state and transnational perspectives on order and justice including those from China India Russia the United States and the Islamic world. Other chapters investigate how the order justice relationship is mediated within major international institutions including the United Nations the World Trade Organization and the global financial institutions.

Territoriality and the Westernization Imperative Claude V. Chang, 2008-01-17 Coexistence in an atmosphere of mutual respect in a pluralist world order has become an even greater challenge in the practice of international relations since the murderous acts committed by al Qaeda on September 11 2001 9 11 that demanded justice This book looks beyond today's popular narratives Dr Chang explores the extent to which the tragedy of 9 11 has been exploited by the neoconservative controlled U S administration as opportunity to launch its grand strategy for creating an American centric order necessary for the continuation of U S hegemony in the twenty first century Specific controversial concerns are extensively examined within the historical and theoretical context of territoriality and power The state of the American economy the Arab Israel conflict and the invasion of Iraq and its aftermath are treated as interrelated issues and examined in terms of the Westernization imperative inherent in the grand strategy that principally requires the containment of an emerging China

highly regarded textbook on International Relations theory which combines deep analysis into the diversity of thought within the major scholarly traditions and the guidance for students on doing their own theorising Knud Erik Jorgensen analyses the nuances of the main contending theories and approaches their philosophical underpinnings and explains their use and relevance to different research agendas This is all placed within the context of cross cutting coverage of key current issues and debates of the philosophical foundations of IR theory and of why different theories are addressed to different research agendas All chapters have been fully revised and updated and a new chapter on the Human Nature tradition has been included to reflect the changes within the field This text is the most up to date and informative text on International Relations theory and is an essential companion for all International Relations students Theories of International Relations

,2022-01-13 This introductory textbook on international relations theory brings together a selection of leading experts to offer an unparalleled insight into the main paradigms and latest developments in the discipline Presenting a full range of theories from realism and liberalism to institutionalism and green theory the sixth edition of this book has been extensively revised to offer a more global introduction to international relations It showcases insights from across the world and employs a historical and sociological perspective throughout to demonstrate how any understanding of IR is time and place contingent New to this edition are two new chapters on postcolonialism and institutionalism as well as boxed cases which apply theory to contemporary empirical examples including gendered policy in the UN the phenomenon of fake news issues on migration and the crisis of the Amazon s forest fires Assuming no prior knowledge of international relations theory this text remains the definitive companion for all students of international relations and anyone with an interest in the latest scholarship of this fascinating field International Relations Martin Griffiths,Terry O'Callaghan,2002 While white racism has global

dimensions it has an unshakeable lease on life in South African political organizations and its educational system Donnarae MacCann and Yulisa Maddy here provide a thorough and provocative analysis of South African children s literature during the key decade around Nelson Mandela s release from prison Their research demonstrates that the literature of this period was derived from the same milieu intellectual educational religious political and economic that brought white supremacy to South Africa during colonial times This volume is a signal contribution to the study of children s literature and its relation to racism and social conditions From International Relations to Relations International Philip Darby,2015-12-22 This book

brings postcolonial critique directly to bear on established ways of theorizing international relations Its primary concern is with the non European world and its relations with the North In advancing an alternative conception of relations international the book draws on alternative source material and different forms of writing It also features short stories an interview and explores the role of poetics and performance The suzerainty of the disciplinary writ is challenged on three primary grounds Firstly on its Eurocentrism which leads the discipline to pass lightly over the distinctive life experiences of most of the world s people Secondly on the discipline s failure to engage in any systematic way with other bodies of

knowledge about the international as for example international political economy postcolonialism and development Lastly it confronts the top down nature of the politics of the discipline and that seldom addresses everyday life From squatter towns to the evasions of the poor from law through to literature this work raises a number of problems for International relations It challenges a colonial mindset de centres the west and opens the field to new approaches that are far more inter disciplinary than international relations generally allows It is a provocative contribution for students and scholars of IR and Postcolonial studies alike

Towards Shockproof European Legal and Governance Strategies Stavros Zouridis, Sam Muller, Peter Polakovic, 2018-06-01

Institutions for the Management of Ethnopolitical Conflict in Central and Eastern Europe European Centre for Minority Issues, Council of Europe, 2008-01-01

Once considered an exclusively internal affair international organisations have over the last few decades become increasingly involved in the management of ethnopolitical conflicts and have been active in attempts to prevent and or resolve them This book presents a series of studies covering the work of eight different organisations active in central and eastern Europe the Organization for Security and Co operation in Europe its High Commissioner on National Minorities the North Atlantic Treaty Organization the United Nations Development Programme and Office for the Coordination of Humanitarian Affairs the Council of Europe the European Union the Stability Pact for South Eastern Europe and the World Bank A further chapter considers the role of non governmental organisations The studies consider the varying approaches adopted by these institutions and illustrate the ways in which these differ from and complement one another The assessment covers both the preventive and reactive sides of conflict management and provides valuable lessons for similar activities in the future both in the region and beyond

International Law and Islam Ignacio de la Rasilla del Moral, Ayesha Shahid, 2018-12-10

International Law and Islam Historical Explorations offers a unique opportunity to examine the Islamic contribution to the development of international law in historical perspective The role of Islam in its various intellectual political and legal manifestations within the history of international law is part of the exciting intellectual renovation of international and global legal history in the dawn of the twenty first century The present volume is an invitation to engage with this thriving development after generations of prejudiced writing regarding the notable contribution of Islam to international law and its history

Political Economy of Statebuilding Mats Berdal, 2017-07-05

This volume examines and evaluates the impact of international statebuilding interventions on the political economy of post conflict countries over the past 20 years While statebuilding today is typically discussed in the context of peacebuilding and stabilisation operations the current phase of interest in external interventions to re build and strengthen governmental institutions can be traced back to the good governance policies of the International Financial Institutions IFIs in the early 1990s These sought political changes and improvements in the quality of governance in countries that were subject to or were seeking support under IFI designed structural adjustment programmes The focus of this book is specifically on state building efforts in conflict affected countries countries that are emerging or have recently emerged from periods of war and

violent conflict The interventions covered in the present volume fall into three broad and overlapping categories
 International administrations and transformative occupations East Timor Iraq and Kosovo Complex peace operations
 Afghanistan Burundi Haiti and Sudan Governance and state building programmes conducted in the context of economic
 assistance Georgia and Macedonia This book will be of much interest to students of statebuilding humanitarian intervention
 post conflict reconstruction political economy international organisations and IR Security Studies in general **A New Deal
 for the World** Elizabeth Borgwardt,2007-09-30 In a work of sweeping scope and luminous detail Elizabeth Borgwardt
 describes how a cadre of World War II American planners inaugurated the ideas and institutions that underlie our modern
 international human rights regime Borgwardt finds the key in the 1941 Atlantic Charter and its Anglo American vision of war
 and peace aims **Spheres of Influence in International Relations** Susanna Hast,2016-04-01 Current events happening
 around the world especially the humanitarian interventions by NATO and the West within the context of the so called Arab
 Spring make the understanding of the role of spheres of influence in international politics absolutely critical Hast explores
 the practical implications and applications of this theory challenging the concept by using historical examples such as
 suzerainty and colonialism as well as the emergence of a hierarchical international order This study further connects the
 English School tradition post war international order the Cold War and images of Russia with the concept of the sphere of
 influence to initiate debate and provide a fresh outlook on a concept which has little recent attention **Global Political

 Bajpai,Saira Basit,V. Krishnappa,2014-08-07 As India prepares to take its place in shaping the course of an Asian century
 there are increasing debates about its grand strategy and its role in a future world order This timely and topical book
 presents a range of historical and contemporary interpretations and case studies on the theme Drawing upon rich and
 diverse narratives that have informed India s strategic discourse security and foreign policy it charts a new agenda for
 strategic thinking on postcolonial India from a non Western perspective Comprehensive and insightful the work will prove
 indispensable to those in defence and strategic studies foreign policy political science and modern Indian history It will also
 interest policy makers think tanks and diplomats **The Closure of the International System** Lora Anne
 Viola,2020-07-09 As global governance appears to become more inclusive and democratic many scholars argue that
 international institutions act as motors of expansion and democratization The Closure of the International System challenges
 this view arguing that the history of the international system is a series of institutional closures in which institutions such as
 diplomacy international law and international organizations make rules to legitimate the inclusion of some actors and the

exclusion of others While international institutions facilitate collective action and common goods Viola s closure thesis demonstrates how these gains are achieved by limiting access to rights and resources creating a stratified system of political equals and unequals The coexistence of equality and hierarchy is a constitutive feature of the international system and its institutions This tension is relevant today as multilateral institutions are challenged by disaffected citizens non Western powers and established great powers discontent with the distribution of political rights and authority **Encyclopedia of International Relations and Global Politics** Martin Griffiths, 2013-11-26 Provides a unique reference source for students and academics covering all aspects of global international relations and the contemporary discipline across IR s major subject divisions of diplomacy military affairs international political economy and theory
