Platts, Daniel Plumley, 2012-04-27 For nearly thirty years George Torkildsen's classic textbook has been the most comprehensive and engaging introduction to sport and leisure management available to students at all levels. Now in a fully revised sixth edition, it is still the only textbook that covers all the key topics taught within contemporary sport and leisure management courses. This new edition includes expanded coverage of the practical managerial skills that students must develop if aiming for a career in the sport and leisure industry, from planning and managing people to marketing and entrepreneurship. It includes five completely new chapters on leisure in the home, financial management, quality management, and law and enterprise, reflecting important developments in contemporary sport and leisure. This edition retains the hallmark strengths of previous editions, including in-depth discussion of the social and cultural context of sport and leisure, full analysis of the public, private, and voluntary sectors, and a review of key products and services, including sport tourism, the arts, play, and leisure in the natural environment. Richly illustrated throughout with up-to-date evidence, data, case studies, and international examples, each chapter also contains a range of useful pedagogical features, such as discussion questions, practical tasks, and structured guides to further reading and resources. For the first time, a dedicated companion website offers additional teaching and learning resources for students and lecturers. Visit the companion website at www.routledge.com/textbooks/taylor.

Human Resource Management for Events Lynn Van der Wagen, 2009-02-04 Human Resource Management for Events is the first text to cover management of human resources in the event environment. Linking theory, research, and application, it covers the differing and various types of event in which human resource management is key, such as Business Events, a vast sector including events people who manage conferences, exhibitions, incentive trips, and individual business travel; Sporting Events, this sector includes sporting events ranging from the Olympic Games, Rugby World Cup, Soccer World Cup, Tour de France, Grand Prix, to many smaller local sporting events; Arts and Entertainment, the logistics, risk, and financial issues facing entertainment events are leading to the development of more sophisticated operational skills for this sector; Music festivals are increasingly popular; Public Events, civic ceremonies, parades, celebrations, festivals, and protests all fall within the scope of public events. Planning, approval, and risk management are increasingly on the agenda for all levels of government. The particular challenges provided by such events are varied. The size of the workforce explodes at the time of the event to include the event management team, many paid staff, hundreds of volunteers, and multiple contractors such as food vendors and cleaning teams. Everyone working on the site comes into the scope of the event workforce. Little time is available for training, and motivation plays a key role in retention and customer service. Decision making occurs on the run, and the event is over before anyone can think about performance appraisal. The environment is further characterised by a fast pace, high stress levels, and many workers are fatigued by the bump in period before the event. Audience pours through the gates to add yet another level of pressure. These features of the human resources environment are quite different to those of the traditional workforce. Human Resource Management for Events is vital reading for both students and practitioners.
