Handbook of Library Training Practice and Development Alan Brine, 2016-04-22 Librarians must now work at a different level from that required 20 years ago but the training available is not always appropriate or accessible to all The authors of this volume have responded to this significant and continuing change within the profession by offering a much needed guide to best practice for staff training and development in library and information work This handbook addresses new aspects of service provision both in the UK and abroad and provides an up to date review of the current developments that are becoming increasingly important to librarians through the influence of the electronic age and the widening of areas of professional involvement The Handbook of Library Training Practice and Development will be invaluable to those responsible for the development of staff and line managers as well as providing a crucial insight into the information profession for anyone new to this career path or looking to develop their knowledge within it

Cooperative Strategy John Child, David Faulkner, Stephen B. Tallman, 2005 This is a clear and comprehensive survey of strategic alliances which presents different disciplinary perspectives and numerous examples from the corporate world The text has been thoroughly revised and updated taking account of new theoretical models and its coverage of case studies has been extended

Handbook of Research on Entrepreneurship and Regional Development Michael Fritsch, 2013-01-01 the book is an important reading in the field of entrepreneurship One of its main contributions is that it clearly shows that the process of new firm formation is a regional event The chapters are rich in theoretical insights and data and are valuable readings for students academics and policy makers interested in entrepreneurship and regional growth Christine Tam sy Regional Studies Entrepreneurship can have powerful effects on local as well as national economies The chapters in this edited volume authored by well known experts in their fields explore various aspects of entrepreneurship and regional development The book provides an illuminating overview of the current state of knowledge while also sharing with the reader several new findings and insights on issues as diverse as globalization regional employment growth nascent entrepreneurs gazelles labor productivity government regulations and university entrepreneurship It is recommended reading for anyone interested in these topics Simon C Parker The University of Western Ontario Canada There is substantial evidence regarding the considerable regional variation in business creation Michael Fritsch has done a fine job of assembling the most recent analyses of the best scholars on the regional factors affecting firm creation and the consequences It is essential reading for any scholar or policy analyst seeking a state of the art overview of the current empirical status of research on this important topic Paul D Reynolds George Washington University US This Handbook examines the contribution of the entrepreneur and related processes to regional economic development The recognition that the indirect entrepreneurial effects on development are more significant than the direct is an important and

under girding conclusion And further that entrepreneurial driven effects are often not felt immediately but in some cases only across decades as illustrated by the over two decade incubation of the entrepreneurial culture in Silicon Valley which only later resulted in it becoming the dominant icon of scientific and technology regional development that it is today Roger Stough George Mason University US This volume fills an important gap in the research literature on entrepreneurship Entrepreneurship is a localized phenomenon and all too many studies disregard this fact Thus the regional economic milieu is a critical factor determining not only the volume and type of entrepreneurship but also the effects of entrepreneurship in terms of value added growth employment growth etc The contributions in this book by a number of leading scientists in the field provide an excellent overview and understanding of the prerequisites for and the role of entrepreneurship in regional growth and development Charlie Karlsson J nk ping University Sweden Recent research has found pronounced differences in the level of entrepreneurship and new business formation across various regions and nations This timely Handbook reveals that the development of new ventures as well as their effects on overall economic growth are strongly shaped by their regional and national environment The expert group of contributors gives an overview on the current state of the art in this field and proposes avenues for further investigation Topics include the regional determinants of new business formation the effects of start ups on growth the role of globalization for regional entrepreneurship the effect of national and regional framework conditions as well as the role of universities as incubators of innovative new firms
