The Leadership of Organizational Change Mark Hughes, 2015-10-05 Understanding both leadership and change have been recurrent and popular themes within the business management and organization studies literature However our understanding of leadership and organizational change in combination is far more limited The Leadership of Organizational Change offers a critical review of the evolution of leadership and organizational change for the past thirty five years taking stock of what we know identifying what we do not know and establishing how the study of the leadership of change should advance In the late seventies and early eighties as interest in managing and leading change was fuelled by the competitive threat of Asia in general and Japan in particular as perceived by western businesses and governments Burns 1978 writing in his landmark book Leadership at this time referred to an intellectual crisis The crisis of leadership today is the mediocrity or irresponsibility of so many of the men and women in power but leadership rarely rises to the full need for it The fundamental crisis underlying mediocrity is intellectual If we know all too much about our leaders we know far too little about leadership While the study of managing change has benefitted from sustained critical scrutiny particularly in the last decade it is believed that this is to have been at the expense of critical scrutiny of leading change The Leadership of Organizational Change critically reviews how the study of leading change has advanced since 1978 and the crisis of intellectual mediocrity

Managing Organizational Conflict Sam Blank, 2020-01-17 Conflict in business and personal relationships is inevitable much of the success of companies depends on how well they respond to it Developing rapport collaboration and cooperation hinges on positive conflict management strategies that stimulate innovation and growth where companies can look for solutions to common issues and needs Conflict management can address dysfunctional
