Eft Level 2 Comprehensive Training Resource Ann Adams, Davidson Karin, 2011-10 The EFT Level 2 Comprehensive Training Resource is a companion to the EFT Level 2 classes based on the Harmonized Curriculum for EFT training EFT Emotional Freedom Techniques is an evidence based self help intervention used by millions of people worldwide Clinical trials have shown it to be effective for a wide variety of conditions including pain fibromyalgia depression anxiety phobias and PTSD The authoritative EFT training program by EFT Universe leads to certification in Clinical EFT and uses this Resource by EFT Master Ann Adams and Karin Davidson as one of the required readings *Hidden Barriers In The Set Up* Sam Oputa, 2016-07-31 What therefore is the incentive to create poor people and legislate a means to keep them down Did I hear you say capitalism You are right The status quo must be maintained Some may not see hypocrisy in this But let us think about this rationally If non blacks were to empathize for lack of a better word with white folks what will be a reason to discriminate against others and institutionalize racism Let s look at a few angles 1 Hatred Hatred or hate is a deep emotional and extreme dislike Such hatred can be directed against certain individuals or groups To say hatred is the reason to keep non whites poor will be far fetched Even when non whites were slaves they had cherished values of live and let live Disdain May be but definitely not hatred 2 Fear Fear is a phobia Phobia is the extreme aversion embedded deep in our psyches activated when we come face to face with that which we fear Some people mostly non blacks are afraid of black people Is it a fear based on facts or a belief that the black man is inherently bad or is it a fear of repercussion emanating from what our grandfathers did to the black man This angle is worth pursuing but then it is just a very lethal phobia 3 Greed This is more like it Greed is good for those at the top Greed is good for the few landowners represented by corporations now The rich have a need to create an imaginary enemy They do not want to be seen as the enemy just like the corporations don t want you to know that they manage the world s resources for a select few They hand out some minute resources here and there to the operators managers of the corporations who are the middle class Thus the middle class thinks they are buddy buddy with the landowners The landowners must provide an incentive so as to maintain a grip at their corporations so the design is to make the middle class believe that the lower class is at that level because they are lazy and seeking handouts Were black people lazy during slavery Did black folks seek handouts during slavery Of course they received handouts in shapes of chit lings pig feet and cow feet How all of a sudden blacks became lazy as soon as slavery was over Can you begin to see the design now 4 By design It is a design in plain sight Many people cannot see it Those who see it are incapable to do anything about it because by design the whole plot has been legislated into law Just like apartheid the various governments and departments at many levels justified the discrimination through laws the oppressed cannot surmount It was so then and it is so today with little or no legislative modification in sight Have you ever imagined why the 44th president of United States is having so much problems with the Congress You think the Congress populated by mostly old white men are giving the black

president a tough time because of race Or you think they hate the first black president of the union If you answered yes to any of these questions you are yet to understand the workings of a country some have christened God s own Country The fear of a black president undoing four hundred years of discriminative laws the phobia of taking down the protections of the rich landowners and the enforcers of that protection led to a section of a congress to proclaim from day 1 of the black president s inauguration if Obama wants it we reject it right off the bat This simply means an opposition to President Obama s policies on all fronts Some were not hiding their enthusiasm for an Obama failure they worked for it They feared an Obama presidency that might implement programs that would invite non whites to participate thus engaging in capitalism Slogans like take our country back were dusted up for re use It was strategic They were all noises meant to drown some of Obama s signature programs like the affordable care act popularly known as Obamacare It has always been by design *United States Army Aviation Digest* ,1971 Principles and Practice of Constraint Programming - CP 2009 Ian P. Gent,2009-09-19 This volume contains the papers presented at CP 2009 The 15th International Conference on Principles and Practice of Constraint Programming It was held from September 20 24 2009 at the Rectory of the New University of Lisbon Portugal Everyone involved with the conference thanks our sponsors for their support There were 128 submissions to the research track of which 53 were accepted for a rate of 41.4% Each submission was reviewed by three reviewers with a small number of additional reviews obtained in exceptional cases Each review was either by a Programme Committee member or by a colleague invited to help by a committee member thanks to their particular expertise Papers submitted as long papers were accepted at full length or not at all It is important to note that papers submitted as short papers were held to the same high standards of quality as long papers There is thus no distinction in these proceedings between long and short papers except of course the number of pages they occupy As it happens the acceptance rates of short and long papers were very similar indeed There were 13 submissions to the application track of which 8 were accepted for a rate of 61.5% Papers underwent the same review process as regular papers and there was not a separate committee for reviewing application track papers However papers in the application track were not required to be original or novel research but to be original and novel as an application of constraints *Life for Us Is What We Make It* Richard W. and Cinema Bradley Lewis,2024-07-09 Experiencing Epiphanies in Literature and Cinema uses health humanities and psychological humanities to explore literary and cinematic epiphanies James Joyce first adopted the term epiphany from its religious use to articulate moments of luminous intensity or sudden spiritual manifestation This study develops and extends Joyce s use of epiphany through a range of literary and cinematic examples from William Shakespeare to Ruth Ozeki and from Yasujir Ozu to Jim Jarmusch This wealth of epiphanies in the arts is important from a health humanities perspective in that they provide access to aesthetic and sustainable experiences of well being joy and human flowering They also provide antidotes to aesthetics of anti epiphany a showing forth of terror horror and panic Experiencing Epiphanies is accordingly both critical and affirmative diagnostic and therapeutic It uses critique to understand the increasing need for well being in contemporary times and it uses affirmation to develop underutilized resources in the arts for transforming configuring and refiguring our everyday lives **Tools and Algorithms for the Construction and Analysis of Systems** Tomáš
