and more      **Queer Precarities in and out of Higher Education** Yvette Taylor, Matt Brim, Churnjeet Mahn, 2023-04-06  
Queer Precarity in Higher Education looks at queer scholars pushing against institutional structures and the queer knowledge that gets pushed out by universities. It provides insight into the work of in and beyond academia as it is undone in the contemporary post-Covid moment, not least by queer academic activists. This radical undoing represents cycles of queer precarity, pragmatism and participation, both situating and questioning the queer arrival of institutionalized programmes and presences, e.g. queer and gender studies degrees, prominent and public feminist academics. In this book, the contributors push back against contemporary educational precarity, mobilizing queer insight and insistence and push back against confinement of the University socially and spatially. The collection brings together academic activist perspectives to extend understandings of experiences of marginalization and inequality in higher education. It also documents the diversity of tactics with which queers negotiate and resist the various shifting and interconnected forms of precarity and privilege found on the edges of academia. Contributors consider these issues from inside/outside academia and across career/course, challenging the queer arrival as emanating outward from the university to the community, from the academic to the activist, or from a state of privilege to a place of precarity.
