Conditioning also offers new lecture preparation materials. A product specific Web site includes new student lab activities that instructors can assign to students. Students can visit this Web site to print the forms and charts for completing lab activities or they can complete the activities electronically and email their results to the instructor. The instructor guide provides a course description and schedule, chapter objectives and outlines, chapter specific Web sites and additional resources, definitions of primary key terms, application questions with recommended answers and links to the lab activities. The presentation package and image bank delivered in Microsoft PowerPoint offers instructors a presentation package containing over 1 000 slides to help augment lectures and class discussions. In addition to outlines and key points, the resource also contains over 450 figures, tables and photos from the textbook which can be used as an image bank by instructors who need to customize their own presentations. Easy to follow instructions help guide instructors on how to reuse the images within their own PowerPoint templates. These tools can be downloaded online and are free to instructors who adopt the text for use in their courses.

Essentials of Strength Training and Conditioning, Third Edition provides the latest and most comprehensive information on the structure and function of body systems, training adaptations, testing and evaluation, exercise techniques, program design and organization and administration of facilities. Its accuracy and reliability make it not only the leading preparation resource for the CSCS exam but also the definitive reference that strength and conditioning professionals and sports medicine specialists depend on to fine tune their practice.
