Political Satire, Postmodern Reality, and the Trump Presidency Mehnaaz Momen, 2018-12-11. This book attempts to grasp the recent paradigm shift in American politics through the lens of satire. It connects changes in the political and cultural landscape to corresponding shifts in the structure and organization of the media in order to shed light on the evolution of political satire on late night television. Satire is situated in its historical background to comprehend its movement away from the fringes of discourse to the very center of politics and the media. Beginning in the 1990s, certain trends such as technological advances, media consolidation, and the globalization of communications reinforced each other, paving the way for satire to claim a prized spot in the visual media, a tendency that only gained strength after September 11. While the Bush presidency presented itself as an apposite target for satirists, their stronghold on American television was made possible by a number of transitions in broader culture which are encapsulated in the shrinking space available for political engagement under neoliberalism. This largely underestimated development can be understood through the framework of postmodernism, which focuses on the relationship between language, power, and the presentation of reality. These trends and transitions reached a climax in the 2016 election, where President Trump was elected, embodying what can only be considered a significant turning point in American politics. The bigger narrative contains various subplots represented in the rise of the neoliberal economy, the acceptance of postmodernism as the dominant cultural code, and the role of the voyeur superseding that of the engaged citizen. It is only through understanding each of these pieces and connecting them that we can comprehend the current

political transformation The present moment may feel like a golden age of satire and it may well be but this book addresses the hardest questions about the realities behind such a claim what can we conclude about when and how satire is effective judging by the history of this genre in its various incarnations and how can the apolitical postmodern media landscape be reconciled with what the best of this genre has had to offer during times of political duress **Intelligent Multimedia Communication: Techniques and Applications** Chang Wen Chen,Zhu Li,Shiguo Lian,2011-07-06 Multimedia data are used more and more widely in human being s life e g videoconferencing visual telephone IPTV etc Nearly most of the applications need multimedia transmission techniques that send multimedia data from one side to another side and keep the properties of efficiency robustness and security Here the efficiency denotes the time cost of transmission operations the robustness denotes the ability to survive transmission errors or noises and the security denotes the protection of the transmitted media content Recently various intelligent or innovative techniques are invented which bring vast performance improvements to practical applications For example such content transmission techniques as p2p sensor network and ad hoc network are constructed which adaptively use the peers properties to improve the network s resources Multimedia adaptation techniques can adjust the multimedia data rate in order to compliant with the network s bandwidth Scalable encryption techniques can generate the data stream that can be correctly decrypted after bit rate conversion Ubiquitous multimedia services make the user share any kind of content anywhere The book includes fourteen chapters highlighting current concepts issues and emerging technologies Distinguished scholars from many prominent research institutions around the world contribute to the book The book covers various aspects including not only some fundamental knowledge and the latest key techniques but also typical applications and open issues For example the covered topics include the present and future video coding standards stereo and multiview coding techniques free viewpoint TV techniques wireless broadcasting techniques media streaming techniques wireless media transmission techniques and systems and User Generated Content sharing **Let it out and Let it in** Ludger Storp,2022-04-05 Dieses Buch ist keine chronologische Nacherz hlung der Beatles Geschichte Es ist auch keine Auflistung ihrer ver ffentlichten Platten Stattdessen versucht es Fragen wie diese zu kl ren Warum erw hnt Leonhard Bernstein Songs der Beatles in einem Atemzug mit Camus und Sartre Warum vergleicht der Schriftsteller A S Byatt Eleanor Rigby mit Samuel Beckett Und warum h tte Steve Jobs die Masterb nder der Beatles aus dem brennenden Haus gerettet und nicht die der Stones Und es geht um die wichtigsten Einfl sse die auf die Beatles gewirkt haben Um schlie lich zu verstehen wie aus Pop Kunst werden kann Das geht nicht ohne Bilder und Musik Deshalb finden Sie mehr als 120 QR Codes die Sie zu den entsprechenden Clips von YouTube oder zu Texten im Original weiterleiten Satisfaction guaranteed **Political Humour and Zimbabwean Identity on Social Media Platforms** Mbongeni Jonny Msimanga,2024-12-16 Political Humour and Zimbabwean Identity on Social Media Platforms by Mbongeni Jonny Msimanga studies Zimbabwean digital political communication to investigate how political satire constructs critiques contests mediates and negotiates national identity

Focusing on Bustop and Magamba TV two YouTube channels that specialise in satiric political skits this book demonstrates what it means to be a Zimbabwean and who or what authorises such belonging Msimanga traces contestations of Zimbabwe's national identity since independence in 1980 refracted by the Gukurahundi genocide questioning national sovereignty and national security the fast track land reform programme and human rights abuses perpetrated by the incumbent ZANU PF government This book provides a conceptual framework that deploys a context sensitive understanding of satire relevant to the global south and to Zimbabwe Msimanga concludes that Magamba and Bustop TV are successful in utilising opportunities inherent in the inflection point and crossroads facing Zimbabwe to open and amplify new spaces for contesting negotiating and critiquing what it means to belong to the national project
