Michel,2025-04-22 Have you heard this narrative The middle class has been hollowed out because of an overreliance on free markets Americans can t compete with low cost labor and imports so all the good jobs in America have disappeared

especially those in manufacturing It s a dismal argument that many politicians even some on the right have spent the past few years spinning They say that the American dream is dying and that only wealthy Americans have been successful for the past few decades Supposedly free trade immigration and unabated technology have resulted in an economy that no longer works for Americans The problem with this bleak story is that it is completely wrong They re misreading both the current level of prosperity in America and how it was created Americans have been growing richer since the end of the 19th century and now enjoy levels of abundance and opportunity unimaginable 150 years ago More recently American incomes have not stagnated lower income Americans have done much better and the middle class has grown robustly The American economy is not perfect but moving further away from free markets and implementing industrial policy as these politicians want to do will make Americans worse off More government intervention and restrictions on economic freedoms will kill the American Dream not save it In *Crushing Capitalism* Norbert J Michel makes the case for maintaining perspective on how well Americans have done during the past few decades and nurturing the institutions that have enabled Americans to succeed

**Raising a Nation** Elliot Haspel,2025 Thanks to a history of neglect child care in America is expensive scarce and of questionable quality Yet too often the response is not a push for governmental action but a derisive why should I pay for your child At best our leaders make the case for child care on bloodless economic grounds we need a place to put the kids so parents can work The problem I believe is that we skipped a step a step so fundamental that it has torpedoed the chances of winning an effective child care system despite decade after decade of pain that crosses geographic and ideological borders We have never established that good child care belongs among the pantheon of American values Because of what it means for the nation that is exactly where child care belongs *Raising A Nation* offers a new framework for thinking about a comprehensive inclusive child care system one that supports families in all their diversity whether they want to utilize a licensed child care program family member or have a parent be the primary child care provider I posit 10 distinct yet interlinking cases for why every American whatever their political affiliation and whether or not they have young children or any children at all has skin in the game when it comes to the country s child care system This groundbreaking book opens up conversations that can finally push child care from being seen as a private responsibility to being seen as an essential part of the American social fabric Provided by publisher

**Bad Neighbor Policy** Ted Galen Carpenter,2014-01-13 The domestic phase of Washington s war on drugs has received considerable criticism over the years from a variety of individuals Until recently however most critics have not stressed the damage that the international phase of the drug war has done to our Latin American neighbors That lack of attention has begun to change and Ted Carpenter chronicles our disenchantment with the hemispheric drug war Some prominent Latin American political leaders have finally dared to criticize Washington while at the same time the U S government seems determined to perpetuate if not intensify the antidrug crusade Spending on federal antidrug measures also continues to increase and the tactics employed by drug war bureaucracy both here and

abroad bring the inflammatory drug war metaphor closer to reality Ending the prohibitionist system would produce numerous benefits for both Latin American societies and the United States In a book deriving from his work at the CATO Institute Ted Carpenter paints a picture of this ongoing fiasco

*Fair Shot* Chris Hughes, 2018-02-20 deeply felt and cogently argued Hughes makes a powerful case that deserves a respectful hearing The Financial Times Facebook co founder Chris Hughes argues that the best way to fight income inequality is with a radically simple idea a guaranteed income for working people paid for by the one percent The first half of Chris Hughes s life played like a movie reel right out of the American Dream He grew up in a small town in North Carolina His parents were people of modest means but he was accepted into an elite boarding school and then Harvard both on scholarship There he met Mark Zuckerberg and Dustin Moskovitz and became one of the co founders of Facebook In telling his story Hughes demonstrates the powerful role fortune and luck play in today s economy Through the rocket ship rise of Facebook Hughes came to understand how a select few can become ultra wealthy nearly overnight He believes the same forces that made Facebook possible have made it harder for everyone else in America to make ends meet To help people who are struggling Hughes proposes a simple bold

solution a guaranteed income for working people including unpaid caregivers and students paid for by the one percent The way Hughes sees it a guaranteed income is the most powerful tool we have to combat poverty and stabilize America's middle class Money cold hard cash with no strings attached gives people freedom dignity and the ability to climb the economic ladder A guaranteed income for working people is the big idea that's missing in the national conversation This book grounded in Hughes's personal experience will start a frank conversation about how we earn in modern America how we can combat income inequality and ultimately how we can give everyone a fair shot
