the content is evidence based and current references are included They also have retained the important focus on case  
studies throughout the text and practical clinically relevant tables figures and other resources Like the previous edition this  
text has an introductory section of the general principles of palliative care followed by a comprehensive section on symptom  
assessment and management encompassing twenty one different symptoms Other key sections include psychosocial support  
and spiritual care providing holistic perspective on care of patients facing advanced disease The text also includes an  
innovative section on special populations addressing those most in need of palliative care The textbook is a useful resource  
for all nurses with the excellent section on end of life care across settings In this new edition the pediatric palliative care  
section has been greatly expanded and includes seven separate chapters on pediatric care It includes a section on special  
issues addressing topics such as ethical considerations nursing research and public policy perspectives and concludes with a  
section presenting models of excellence including six international models This edition also offers a narrative on dying based  
on a spouse s perspective The text includes an appendix with an extensive list of resources for nurses in the field      **Iron**
