Believing Ellen T. Armour, 2023-07-04 Social media platforms are often denounced as bubbles or echo chambers. In this view, what we see tends to reinforce what we already believe, and what we already believe shapes what we see. Yet social movements such as Black Lives Matter rely heavily on the widespread dissemination of digital photographs and videos through social media. In at least some cases, visual images can challenge normative and normalized ways of grasping the world and prompt their viewers to see differently and even bring people together. Seeing and Believing marshals religious resources to recast the significance of digital images in the struggle for social justice. Ellen T. Armour examines what distinguishes digital photography from its analogue predecessor and places the circulation of digital images in the broader context of virtual visual cultures. She explores the challenges and opportunities that visually saturated social media landscapes present for users and organizers. Despite the power of digital platforms and algorithms, possibilities for disruption and resistance emerge from how people engage with these systems. Armour offers ways of seeing drawn from Christianity and found in other religious traditions to help us break with entrenched habits and rethink how we engage with the images that grab our attention. Developing theological perspectives on the power and peril of photography and technology, *Seeing and Believing* provides suggestions for navigating the new media landscape that can spark what Armour calls photographic insurrection.

Algospeak Adam Aleksic, 2025-07-17 A linguist explores how the internet is redefining our vocabulary. No cap, this bruh slaps and slays. Adam Grant, author of *Think Again*, incisive and funny; this is a page-turner from start to finish. *Algospeak* is a must-read for anyone seeking to understand how we communicate today. Taylor Lorenz, author of *Extremely Online*, packed with fascinating facts of the moment, observations, and a sparkling voice. *Algospeak* is a gift to any word nerd. Amanda Montell, author of *The Age of Magical Overthinking* and *Cultish*. From the rise of leetspeak and words such as *unalive* to the trend of adding *core* to different influencer aesthetics, the internet has ushered in an unprecedented linguistic upheaval. We're entering an entirely new era of etymology, heralded by the invisible forces driving social media algorithms. And with over 7 billion internet users uploading over 2.5 quintillion bytes of media every day, the sheer volume of potential new words is astounding. In *Algospeak*, online etymologist Adam Aleksic shines a light on the roots of words that we don't realise have come from unexpected places: from incel culture, from the innovation of users trying to get around content moderation algorithms, from the marketing speak that has invaded our personal lives. New slang emerges and goes viral overnight. Accents are shaped or erased on YouTube. Grammatical rules, loopholes, and patterns surface and transform our interactions, social norms, and habits. An energetic, astonishing journey into language and the internet, *Algospeak* reveals the bigger social story of how language shapes us just as much as we shape it.
