Educational Rankings Annual 2006 Westney, Lynn C. Hattendorf Westney, 2005-09. Educational Rankings Annual is useful for students, parents and school faculty. Also administrators of libraries and educational institutions use rankings to defend budgets, justify new positions, obtain government funding and attract philanthropic support. The annually updated resource presents more than 4 000 national, regional and international lists and rankings compiled from hundreds of respected sources. The entries in Rankings include a description of the ranking, background information on criteria for establishing the hierarchy, additional remarks about the ranking, the complete or partial if extensive ranking and source citations if necessary.

U.S. Power in International Higher Education Jenny J. Lee, 2021-07-16. 2021 ASHE CIHE Award for Significant Research on International Higher Education. U.S. Power in International Higher Education explores how internationalization in higher education is not just an educational endeavor but also a geopolitical one. By centering and making explicit the role of power, the book demonstrates the United States's advantage in international education as well as the changing geopolitical realities that will shape the field in the future. The chapter authors are leading critical scholars of international higher education with diverse scholarly ties and professional experiences within the country and abroad. Taken together, the chapters provide broad trends as well as in-depth accounts about how power is evident across a range of key international activities. This book is intended for higher education scholars and practitioners with the aim of raising greater awareness on the unequal power dynamics in internationalization activities and for the purposes of promoting more just practices in higher education globally.

The Global Academic Rankings Game Maria Yudkevich, Philip G. Altbach, Laura E. Rumbley, 2016-03-02. The Global Academic Rankings Game provides a much needed perspective on how countries and universities react to academic rankings. Based on a unified case methodology of eleven key countries and academic institutions, this comprehensive volume provides expert analysis on this emerging phenomenon at a time when world rankings are becoming increasingly visible and influential on the international stage. Each chapter provides an overview of government and national policies as well as an in-depth examination of the impact that rankings have played on policy practice and academic life in Australia, Chile, China, Germany, Malaysia, the Netherlands, Poland, Russia, Turkey, the United Kingdom and the United States. The Global Academic Rankings Game contributes to the continuing debate about the influence of rankings in higher education and is an invaluable resource for higher education scholars and administrators as they tackle rankings in their own national and institutional contexts.

The Abundant University Michael D. Smith, 2023-09-19 Why our current system of

higher education is financially and morally unsustainable and how to address the crisis with the creative implementation of

digital technologies For too long our system of higher education has been defined by scarcity scarcity in enrollment scarcity

in instruction and scarcity in credentials In addition to failing students professionally this system has exacerbated social

injustice and socioeconomic stratification across the globe In *The Abundant University* Michael D Smith argues that the only

way to create a financially and morally sustainable higher education system is by embracing digital technologies for enrolling

instructing and credentialing students the same technologies that we have seen create abundance in access to resources in

industry after industry *The Abundant University* explains how we got our current system why it s such an expensive

inefficient mess and how a system based on exclusivity cannot foster inclusivity Smith challenges the resistance to digital

technologies that we have already seen among numerous institutions citing the examples of faculty resistance toward digital

learning platforms While acknowledging the understandable self preservation instinct of our current system of residential

education Smith makes a case for how technology can engender greater educational opportunity and create changes that will

benefit students employers and society as a whole
