The New Global Universities Bryan Penprase, Noah Pickus, 2023-12-05 Reimagining higher education around the world lessons from the creation of eight new colleges and universities in Africa Asia the Middle East and North America Higher education is perpetually in crisis buffeted by increasing costs and a perceived lack of return on investment campus culture that is criticized for stifling debate on controversial topics and a growing sense that the liberal arts are outmoded and irrelevant Some observers even put higher education on the brink of death The New Global Universities offers a counterargument telling the story of educational leaders who have chosen not to give up on higher education but to reimagine it The book chronicles the development and launch of eight innovative colleges and universities in Africa Asia the Middle East and North America describing the

combination of intellectual courage entrepreneurial audacity and adaptive leadership needed to invent educational institutions today The authors both academic leaders who have been involved in launching ventures similar to the ones described offer a unique inside perspective on these efforts Bryan Penprase and Noah Pickus show how the founders of new colleges and universities establish distinctive brands in a sector dominated by centuries old institutions secure creative sources of funding attract stellar faculty and students and design appealing curriculums and campuses all while managing tradeoffs and setbacks balancing local needs and global aspirations and wrestling with challenges to academic freedom These new educational institutions include two universities in Asia and the Middle East built by well established American parent institutions others in Africa and North America that offer holistic reform from the ground up and leverage new technologies to lower costs and still others that adapted the American liberal arts model to Asian and African contexts Their experiences offer lessons for future founders of new universities and for those who want to renew and rejuvenate existing ones

Higher Education in the Global Age Daniel Araya, Peter Marber, 2013-11-20 Discussions on globalization now routinely focus on the economic impact of developing countries in Asia Africa the Middle East the former Soviet Union and Latin America Only twenty five years ago many developing countries were largely closed societies Today the growing power of emerging markets is reordering the geopolitical landscape On a purchasing power parity basis emerging economies now constitute half of the world's economic activity Financial markets too are seeing growing integration Asia now accounts for 13 of world stock markets more than double that of just 15 years ago Given current trajectories most economists predict that China and India alone will account for half of global output by 2050 almost a complete return to their positions prior to the Industrial Revolution How is higher education shaping and being shaped by these massive tectonic shifts As education rises as a geopolitical priority it has converged with discussions on economic policy and a global labor market As part of the Routledge Studies in Emerging Societies series this edited collection focuses on the globalization of higher education particularly the increasing symbiosis between advanced and developing countries Bringing together senior scholars journalists and practitioners from around the world this collection explores the relatively new and changing higher education landscape

Public Higher Education That Works Mitchel B. Wallerstein,2024 Discover how one public higher education institution was able to succeed despite the many obstacles and challenges that it faced This is the story of how and why Baruch College of The City University of New York became a positive outlier overcoming serious financial constraints physical space limitations and other difficulties to be highly ranked academically and financially stable During a tumultuous time for public higher education Baruch has graduated tens of thousands of smart and striving individuals the majority of whom were the first in their family ever to attend college with little or no educational debt As the former president of the college Mitchel Wallerstein analyzes the lessons learned and he identifies the specific factors that explain Baruch s success He addresses the question of whether there is anything unique about Baruch s approach a secret sauce so to speak that accounts for its academic success and financial strength and he considers whether the Baruch model can be replicated by other public institutions Book Features Reviews the history of public higher education its development in the state of New York and the important role it has played in the economic development of the United States Presents a unique comparative analysis of 15 public higher education institutions in 6 states across the country comparing their strengths and standing in relation to one another and to Baruch College Explores

the replicability and sustainability of the Baruch model in the context of other public higher education institutions across the country Reflects on the current and future challenges facing public higher education in the 21st century Visiting College Campuses Janet Spencer, Sandra Maleson, 2004-04-06 Includes profiles of 299 colleges and universities Cover **University Rankings** William Yat Wai Lo, 2014-02-17 This book adopts a qualitative case study approach to provide the readers with a systematic delineation and interpretation of the implications of the university ranking phenomenon for Taiwan's higher education system It reviews the literature on different theories concerning the global transformation of higher education and presents basic information on higher education in Taiwan The author develops a four dimensional framework for the analysis of the ranking phenomenon in the island state First the technological ecological dimension aims to look into how the rankings have impacted Taiwan's higher education based on empirical findings from five Taiwanese public universities Next the technological geographical dimension examines how Taiwan can use rankings to promote its interests in global higher education The two conceptual dimensions focus on the relationship between the rankings and power in higher education They show how the phenomenon can be read and explained through theoretical lenses from ecological and geographical perspectives From an ecological perspective the empirical evidence suggests that the influence of rankings varies throughout the academic hierarchy in Taiwan The theoretical analysis then illustrates the relationship between the ranking phenomenon and the power structure in academic hierarchy Geographically while the empirical analysis is based on data from Taiwan the theoretical analysis offers essential insights that help readers to understand the changing global landscape of higher education and its implications in East Asia **Breaking Ranks** Colin Diver, 2022-04-12 Some colleges will do anything to improve their national ranking That can be bad for their students and for higher education Since U S News World Report first published a college ranking in 1983 the rankings industry has become a self appointed judge declaring winners and losers among America's colleges and universities In this revealing account Colin Diver shows how popular rankings have induced college applicants to focus solely on pedigree and prestige while tempting educators to sacrifice academic integrity for short term competitive advantage By forcing colleges into standardized best college hierarchies he argues rankings have threatened the institutional diversity intellectual rigor and social mobility that is the genius of American higher education As a former university administrator who refused to play the game Diver leads his readers on an engaging journey through the mysteries of college rankings admissions financial aid spending policies and academic practices He explains how most dominant college rankings perpetuate views of higher education as a purely consumer good susceptible to unidimensional measures of brand value and prestige Many rankings he asserts also undermine the moral authority of higher education by encouraging various forms of distorted behavior misrepresentation and outright cheating by ranked institutions The recent Varsity Blues admissions scandal for example happened in part because affluent parents wanted to get their children into elite schools by any means necessary Explaining what is most useful and important in evaluating colleges Diver offers both

college applicants and educators a guide to pursuing their highest academic goals freed from the siren song of the best college illusion Ultimately he reveals how to break ranks with a rankings industry that misleads its consumers undermines academic values and perpetuates social inequality

Higher Education Accountability Robert Kelchen, 2018-02-27 The first comprehensive overview charting the accountability of higher education As the price tag of higher education continues to rise colleges and universities across the country are under increasing pressure to demonstrate their value Graded on numerous metrics including cost and ability to prepare students for the job market colleges must satisfy requirements from multiple stakeholders State and federal governments demand greater accountability Foundations and private donors as well as today's parents and students approach education with a consumer sensibility How can colleges navigate these pressures while trying to stay true to their missions and values In Higher Education Accountability Robert Kelchen delivers the first comprehensive overview of how colleges in the United States came to face such overwhelming scrutiny Beginning with the earliest efforts to regulate schools Kelchen reveals the rationale behind accountability and outlines the historical development of how federal and state policies accreditation practices private sector interests and internal requirements have become so important to institutional success and survival With so many diverse and conflicting entities holding colleges responsible for their performance the variety of accountability systems in play can have both intended and unintended consequences Immersed as they are in current debates about how best to respond to these pressures faculty and administrators will welcome this up to date and timely account which offers not only a look at current practices but also an examination of the future of accountability in American higher education
