Dear [Mr./Mrs./Ms.] [Hiring Manager's Name],

I came across your job posting in ABC Company for the Warranty Administrator position, and I am interested in applying for it. I am the ideal candidate for this position due to my background as Warranty Administrator and I am confident that my 6 years of expertise and knowledge will be very helpful to your company.

I hold a Master's degree in Business Administration from a reputable university and am a motivated and experienced professional. I have a lot of experience resolving product problems and warranty claims in my role as a warranty administrator. I've handled hundreds of claims with success and addressed numerous challenging product problems. My keen eye for detail makes sure that every piece of paperwork is completed accurately and on schedule. I can spot trends and prospective issues with great speed thanks to my analytical talents, which allows me to take immediate action when necessary.

Highlights of my experience include –

- Assisted in the management of numerous accounts receivable, including posting payments, balancing credits and debits, and addressing any problems.
- Proactively examined all unpaid claims, corrected or appealed them within a set time limit.
- Interacted with representatives from external vendors on open claims while preserving and supplying all necessary verification requirements to ensure payments.
- Reduced loss potential by more than 30% by implementing the ever-changing warranty policies and processes.

I am a very organized, meticulous person who can do several projects at once. I have strong problem-solving, and communication skills, and the capability to work both independently and collaboratively. I have no doubt that these abilities will be beneficial to your company.

My range of experience coupled with my ability to be an enthusiastic, compassionate professional would make a positive contribution to your institution. I would welcome an interview and hope to hear from you at your earliest convenience.

Sincerely,
[Your Name]

Advancement and adventure awaits those who seek it out. *Law, Economics, and Game Theory* John Cirace, 2020-07-06. This book considers three relationships: law and economics, economics and game theory, and game theory and law. Economists teach lawyers that economic principles cut across and integrate seemingly different legal subjects such as contracts, torts, and property. Correspondingly, lawyers teach economists that legal rationality is a separate and distinct decision-making process that can be formalized by behavioral rules that are parallel to and comparable with the behavioral rules of economic rationality. That efficiency often must be constrained by legal goals such as equal protection of the laws, due process, and horizontal and distributional equity, and that the general case methodology of economics vs. the hard case methodology of law for determining the truth or falsity of economic theories and theorems sometimes conflict. Economics and Game Theory. Law and economics books focus on economic analysis of judges' decisions in common law cases and have been mostly limited to contracts, torts, property, criminal law, and suit and settlement. There is usually no discussion of the many areas of law that require cooperative action such as is needed to provide economic infrastructure, control public bad type externalities, and make legislation. Game theory provides the bridge between competitive markets and the missing discussion of cooperative action in law and economics. How? Competitive markets are examples, subset of the Prisoners Dilemma, which explains the conflict between individual self-interested behavior and cooperation both in economic markets and in legislative bodies, and demonstrates the need for social infrastructure and regulation of pollution and global warming. Game Theory and Law. Lawsuits usually involve litigation between two parties, not the myriad participants in markets, so the assumption of self-interest constrained by markets does not carry over to legal disputes involving one-on-one bargaining in which the law gives one party superior bargaining power. Game theory models predict the effect of different legal institutions, rights, and rules on the outcome of such bargaining. Game theory also has a natural four-model framework which is used in this book to analyze the law and economics of civil obligation, which consists of torts, negligence, contracts, and unjust enrichment. *Congressional Record* United States Congress, 1980. **Uniform Commercial Code Reporting Service, Second Series**, 1994. Small Business Kit For Dummies Richard D. Harroch, 2010-03-11. Get your small business up and running and keep it running for years to come.
