The Green New Deal Jeremy Rifkin, 2019-09-10 New York Times Bestselling Author The renowned economic theorist explains how America can and must create a post fossil fuel culture to survive We can t keep doing business as usual Facing a global emergency a younger generation has spearheaded a national conversation around a Green New Deal a movement

with the potential to revolutionize society But while the Green New Deal has become a lightning rod in the political sphere there is a parallel movement emerging within the business community that will shake the very foundation of the global economy in coming years Key sectors of the economy are fast decoupling from fossil fuels in favor of ever cheaper solar and wind energies and the new business opportunities and employment that accompany them New studies are sounding the alarm that trillions of dollars in stranded fossil fuel assets could create a carbon bubble likely to burst by 2028 causing the collapse of the fossil fuel civilization The marketplace is speaking and governments will need to adapt if they are to survive and prosper In The Green New Deal Jeremy Rifkin delivers the political narrative and economic plan for the Green New Deal that we need at this critical moment in history The concurrence of a stranded fossil fuel assets bubble and a green political vision opens up the possibility of a massive shift to a post carbon ecological era in time to prevent a temperature rise that will tip us over the edge into runaway climate change With twenty five years of experience implementing Green New Deal style transitions for both the European Union and the People s Republic of China Rifkin offers his vision for how to transform the global economy and save life on Earth The Green New Deal takes a stance quite different from that of typical Green New Deal supporters he s interested in building factories farms and vehicles in a fossil free world asserting that the Green New Deal is all about infrastructure The New York Times Book Review An urgent endorsement of efforts to remake a doomed fossil fuel economy before it s too late Kirkus Reviews

Zambia International Monetary Fund. African Dept.,2024-12-17 Zambia faces a severe drought sharply reducing agricultural and electricity output and leading to extensive load shedding In response the authorities expanded social cash transfers to support affected households Multilateral financing has eased fiscal and balance of payments pressures Despite these challenges policy adjustment and reforms are supporting macro stability and fiscal and debt sustainability

Vigyaksha: August 2025 , Dear Readers It is with great pleasure that I present to you the latest edition of Vigyaksha a platform where science meets clarity relevance and impact This issue reflects the breadth and depth of contemporary scientific inquiry bringing together voices from across academia industry and healthcare From the hidden threats of mycotoxin contamination in animal feed and acrylamide in everyday foods to the under addressed crisis of maternal mental health our contributors shine a light on challenges that demand urgent attention Equally the innovative spirit of modern science is on display in discussions on polysorbate degradation in biologics the development of Fibroplug as a breakthrough hemostat and the use of biochar for advancing circular economy principles This issue also celebrates the transformative role of biotechnology be it in microbial pullulan production for sustainable applications or in pioneering analytical approaches to safeguard product stability and patient safety At Vigyaksha our mission is not only to report science but to contextualize it to explore how research translates into solutions for real world problems I thank our authors for their contributions and our readers for their continued engagement in this journey of knowledge sharing As you turn the pages I invite you to think beyond the data to see the connections between disciplines and to recognize the shared responsibility we

all have in shaping a future where science serves both people and the planet Happy Reading *Palimpsests and Related Phenomena across Languages and Cultures* Jost Gippert, José Maksimczuk, Hasmik Sargsyan, 2024-12-02 Palimpsests are manuscripts whose original content has been erased scraped away washed off and later overwritten In their lower layers they often contain unique versions of texts including those otherwise lost from Antiquity and the Middle Ages The volume addresses palimpsesting across languages cultures and times as well as up to date research and imaging practices applied to them and results achieved in reconstituting removed layers Drug Repurposing David Cavalla, 2022-01-31 Drug

repurposing is the development of existing drugs for new uses given that 9 in 10 drugs that enter drug development are never marketed and therefore represent wasted effort it is an attractive as well as inherently more efficient process Three repurposed drugs can be brought to market for the same cost as one new chemical entity and they can also be identified more quickly an important benefit for patients whose diseases are progressing faster than therapeutic innovation But repurposing also requires a fresh look at configuring pharmaceutical R a holistic gedanken experiment almost needs to be undertaken at the very start of any repurposing development In addition to new ways of thinking the discovery of repurposing opportunities can take advantage of artificial intelligence techniques to match the perfect new use for an existing drug And while repurposing of medicines has been in the mind of every doctor since Hypocrates modern clinical practice will simply have to adapt to new repurposing techniques in an age where the number of known diseases is increasing much faster than the healthcare dollars available **Launch With Certainty, Not Hope: Tested Methods To**
