been marketed and purchased and so on Q What has been the most challenging part of utilizing social media A I think the learning curve With all of these sites they come with no directions and no LIVE phone number Q What has worked the best and worst thus far A Facebook because of its broad reach really has worked for me but many would argue that YouTube works the best particularly since it is the search engine of choice with the 11-34 age group Q How can a person searching for a job use social media marketing A So many ways They need to be on LinkedIn with a professional looking profile photo and contact information They could also utilize video to begin sharing their expertise Candidates need to stand out in a crowd of millions so if they say sent in a video introducing themselves and a video follow up email that would wow them Q What is the newest thing since Twitter A I believe companies and individuals are starting to utilize audio for creating their own iTunes channel and also location based social media like FourSquare I personally am not sold on location based services as of yet from a safety point of view but for retailers it can be a good thing I believe video is going to explode in popularity in 2011 for the 35 market as well They just need to get comfortable being on camera
