Eshghi, 2012-10-15 Solid State Drives SSDs are gaining momentum in enterprise and client applications replacing Hard Disk Drives HDDs by offering higher performance and lower power In the enterprise developers of data center server and storage systems have seen CPU performance growing exponentially for the past two decades while HDD performance has improved linearly for the same period Additionally multi core CPU designs and virtualization have increased randomness of storage I/Os These trends have shifted performance bottlenecks to enterprise storage systems Business critical applications such as online transaction processing financial data processing and database mining are increasingly limited by storage performance In client applications small mobile platforms are leaving little room for batteries while demanding long life out of them Therefore reducing both idle and active power consumption has become critical Additionally client storage systems are in need of significant performance improvement as well as supporting small robust form factors Ultimately client systems are optimizing for best performance power ratio as well as performance cost ratio SSDs promise to address both enterprise and client storage requirements by drastically improving performance while at the same time reducing power Inside Solid State Drives walks the reader through all the main topics related to SSDs from NAND Flash to memory controller hardware and

software from I/O interfaces PCIe SAS SATA to reliability from error correction codes BCH and LDPC to encryption from Flash signal processing to hybrid storage We hope you enjoy this tour inside Solid State Drives **Conversion**

Optimization Khalid Saleh, Ayat Shukairy, 2010-11-01 How do you turn website visitors into customers Conversion Optimization offers practical advice on how to persuade visitors to make a buying decision without driving them away through data overload or tedious navigation You'll learn how to use marketing principles design usability and analytics on your site to increase your buyer to visitor ratio whether you're involved with marketing or designing a large ecommerce site or managing a modest online operation Based on the authors' broad experience in helping businesses attract online customers this book addresses every aspect of the process from landing visitors to finalizing the sale You'll learn several techniques for blending successful sales approaches with the particular needs of the people you want to attract Are you ready to do what it takes to get a double digit conversion rate Explore case studies involving significant conversion rate improvements Walk through different stages of a sale and understand the value of each Understand your website visitors through persona creation Connect with potential customers and guide them toward a conversion Learn how to deal with FUDs customer fears uncertainties and doubts Examine the path that visitors take from landing page to checkout Test any change you make against your original design The Web is unique in its ability to deliver this almost improbable win-win You can increase revenue AND make your customers happy Yet most websites stink Worry not Khalid and Ayat to the rescue Buy this book to follow their practical advice on how to create high converting websites that your visitors love Avinash Kaushik author of Web Analytics 2.0 and Web Analytics An Hour A Day both Sybex PC Mag, 1989-04-25 PCMag.com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology **Self-Reference in**

the Media Winfried Nöth, Nina Bishara, 2008-09-25 This book investigates how the media have become self-referential or self-reflexive instead of mediating between the real or fictional worlds about which their messages pretend to be and between the audience that they wish to inform counsel or entertain The concept of self-reference is viewed very broadly Self-reflexivity metatexts metapictures metamusic metacommunication as well as intertextual and intermedial references are all conceived of as forms of self-reference although to different degrees and levels The contributions focus on the semiotic foundations of reference and self-reference discuss the transdisciplinary context of self-reference in postmodern culture and examine original studies from the worlds of print advertising photography film television computer games media art web art and music A wide range of different media products and topics are discussed including self-promotion on TV the TV show Big Brother the TV format historytainment media nostalgia the documentation of documentation in documentary films Marilyn Monroe in photographs humor and paradox in animated films metacommunication in computer games metapictures metafiction metamusic body art and net art *IBM vs Oracle* Leo Musk, AI, 2025-02-12 IBM vs Oracle explores the intense

competition between these two tech giants focusing on how they shape business technology through cloud computing artificial intelligence and enterprise software This book uniquely dissects their rivalry highlighting their distinct strategies and impacts on digital transformation For instance IBM emphasizes hybrid cloud solutions and open source initiatives while Oracle focuses on database centric cloud infrastructure Understanding these approaches is crucial for navigating today s tech driven business landscape The book progresses by examining each company s historical context tracing their evolution and foundational technologies It contrasts IBM s hybrid cloud vision with Oracle s Gen2 Cloud Infrastructure and explores their AI initiatives comparing IBM Watson s cognitive computing with Oracle s AI driven applications The book further evaluates their enterprise software portfolios providing a comprehensive analysis of their rivalry s implications for businesses and best practices for technology selection
