Wie unter Zwang hängen wir an unseren E-Mails, Instagram Likes und Facebook Posts, wir schieben uns mit Fernsehserien ins Koma, können das Online-Shopping nicht lassen, arbeiten jedes Jahr

noch ein paar Stunden länger wir starren im Schnitt drei Stunden am Tag auf unsere Smartphones Ein Grund dafür liegt im suchterzeugenden Design dieser Technologien Das Zeitalter der Verhaltenssüchte ist noch jung doch immer deutlicher wird wie sehr es sich um ein gesellschaftlich relevantes Problem handelt mit zerstörerischer Wirkung auf unser Wohlergehen und besonders die Gesundheit und das Glück unserer Kinder Der Psychologe Adam Alter zeigt warum sich Verhaltenssüchte so wild wuchernd ausbreiten wie sie aus der menschlichen Psyche Kapital schlagen und was wir tun müssen damit wir und unsere Kinder es einfacher haben ihnen zu widerstehen Denn die gute Nachricht lautet dass wir den Verhaltenssüchten nicht unumstößlich ausgeliefert sind Adam Alter hat den Heiligen Gral erlangt ein wichtiges Buch voller Einsicht das zu lesen ein Vergnügen ist und auf aktuellster Forschung beruht Charles Duhigg Mergers, Acquisitions, and Other Restructuring Activities Donald DePamphilis, 2013-10-01 In the seventh edition of Mergers Acquisitions and Other Restructuring Activities winner of a 2014 Textbook Excellence Award Texty from the Text and Academic Authors Association Donald DePamphilis looks into the heart of current economic trends In addition to a new chapter on the ways deals are financed more than 85% of the 54 integrative case studies are new and involve transactions announced or completed since 2010 This new edition anchors its insights and conclusions in the most recent academic research with references to more than 170 empirical studies published in leading peer reviewed journals since 2010 Practical exhibits case studies involving diverse transactions easy to understand numerical examples and hundreds of discussion questions and practical exercises are included This substantially updated content supplemented by questions from CFA Institute examinations offers the only comprehensive exploration of today's business transactions Mergers acquisitions and restructuring transactions reveal the inner workings of our economy This longstanding award winning treatment lays out what every student and professional should understand about their parts what they are intended to accomplish and what their competitive strategic and value consequences are Winner of a 2014 Texty Award from the Text and Academic Authors Association Includes up to date and notable transactions Facebook's takeover of Instagram and LinkedIn's IPO and regulations Dodd Frank Act of 2010 and JOBS Act of 2012 Covers recent trends emerging country acquirers in global MAs and tactics top up options and cash rich split offs Additional content available online **Medien - Bildung - Dispositive** Julius Othmer, Andreas Weich, 2014-12-23 Medienbildung ist in aller Munde Doch wie kann sie theoretisch konturiert werden Und welche Disziplinen stehen dabei in der Pflicht Der Sammelband Medien Bildung Dispositive bringt auf der theoretischen Grundlage des Dispositiv Konzepts von Michel Foucault verschiedene Ansätze aus den Erziehungs Bildungs und Medienwissenschaften zusammen und leistet dadurch einen wertvollen Beitrag zu einer interdisziplinären Medienbildungsforschung **Facebook Nation** Newton Lee, 2022-02-02 This book explores total information awareness empowered by social media At the FBI Citizens Academy in February 2021 I asked the FBI about the January 6 Capitol riot organized on social media that led to the unprecedented ban of a sitting U S President by all major social networks In March 2021 Facebook CEO Mark Zuckerberg Google CEO Sundar Pichai and

Twitter CEO Jack Dorsey appeared before Congress to face criticism about their handling of misinformation and online extremism that culminated in the storming of Capitol Hill. With more than three billion monthly active users, Facebook family of apps is by far the world's largest social network. Facebook as a nation is bigger than the top three most populous countries in the world: China, India, and the United States. Social media has enabled its users to inform and misinform the public to appease and disrupt Wall Street to mitigate and exacerbate the COVID-19 pandemic and to unite and divide a country. Mark Zuckerberg once said, "We exist at the intersection of technology and social issues." He should have heeded his own words. In October 2021, former Facebook manager turned whistleblower Frances Haugen testified at the U.S. Senate that Facebook's products harm children, stoke division, and weaken our democracy. This book offers discourse and practical advice on information and misinformation, cybersecurity and privacy issues, cryptocurrency and business intelligence, social media marketing, and caveats to government and e-activism, as well as the pros and cons of total information awareness, including the Edward Snowden leaks. Highly recommended. T. D. Richardson, *Choice Magazine*. A great book for social media experts. Will M. AdWeek. Parents in particular would be well advised to make this book compulsory reading for their teenage children. David B. Henderson, *ACM Computing Reviews*. *Irresistible*. Adam Alter, 2017-03-02. Almost half of the developed population has an internet-based addiction. In some ways, this is not surprising as our world is filled with addictive experiences from social media and messaging to rolling news and video streaming. Attention spans are decreasing as our time spent glued to our screens is increasing, negatively affecting our ability to relax, sleep, develop relationships, and achieve meaningful goals. Psychologist Adam Alter provides insight into why we can't seem to stop such behaviour and offers practical advice for using technology differently in order to lead a happier life and to set yourself free. This examination of today's tech zombie epidemic is worth putting your phone down for. Guardian Essential reading. Regain control of your time, finances, and relationships. Charles Duhigg, author of *The Power of Habit*. [Big Tech Acquisitions and Merger Control](#) Nils Stock, 2025-09-30. Big Tech Acquisitions and Merger Control Challenges Posed by Digital Platforms and Ecosystems. Nils Stock. Although legal analysis of merger-related firm dominance in Big Tech has emphasised the so-called GAFAM (Google, Amazon, Facebook, Apple, and Microsoft), this important book stresses the necessity for a much broader view. Numerous large tech platforms continue to seek dominance in and across various market segments by acquiring small start-up companies with high competitive potential but yet little or no turnover, thereby running the risk of escaping antitrust scrutiny. This phenomenon is now often referred to as killer acquisitions, and it raises problems with regard to both the jurisdictional and the substantive aspects of merger control, which this book addresses comprehensively. Focusing on legislative initiatives and enforcement practice, especially in the European Union and the United Kingdom, and through an in-depth analysis of the most prominent decisions concerning Big Tech acquisitions, the author spells out the nature of such relevant legal issues and strategies as the following: the economic principles of platform competition and the particularities of digital ecosystems.

including their implications for merger control an extensive comparison of different jurisdictional rules and notification requirements beyond standard turnover thresholds how Big Tech acquisitions can be subjected to scrutiny in the European Union via referrals under Article 22 of the European Union Merger Regulation EUMR potentially in combination with national call in tools and or Article 14 of the Digital Markets Act DMA and how the latter compares to the reporting requirement under the Digital Markets Competition and Consumers DMCC Act in the United Kingdom market definition and market power assessments including but not limited to social media and advertising markets how both traditional and novel theories of harm can be applied in the context of digital platforms and ecosystems application of theories of harm relating to killer acquisitions and reverse killer acquisitions the development of an ecosystem theory of harm and artificial intelligence as the new frontier Policy proposals and the academic legal literature are taken into account with due regard to economic considerations as well With competition authorities and legislators worldwide grappling to find an appropriate response to the expansion and consolidation of dominance in various digital markets it appears necessary to contemplate alternatives to the current turnover based notification thresholds and to rethink the substantive assessment of Big Tech acquisitions This book with its thorough guidance on the characteristics challenges and treatment of digital platforms and ecosystems in the context of merger control and its clear exposition of applicable theories of harm will greatly assist practitioners competition authorities and policymakers to successfully navigate through the challenging tasks of establishing jurisdiction defining relevant markets and assessing market power and competitive harm
