Methods, Methodologies, and Perspectives in the Humanities and Social Sciences With Particular Reference to Islamic Studies: A Critical Rationalist Interpretation Ali Paya, 2021-01-01

This book presents the first comprehensive introduction to methods and methodologies in the humanities and social sciences in general and Islamic Studies in particular from a critical rationalist point of view. The book aims to be a self-sufficient theoretical and practical guide to the topics that it introduces. It contains a large selection of fully worked-out review activities and review questions plus topics for further discussion which are devised to assist readers to better understand the issues which are discussed in the book. Last but not least, all efforts have been made to make sure that most if not all of the reading materials which are recommended in the book are not only of the highest quality but also freely available on the internet.

James Hutton Ray Perman, 2022-09-01 Discover one of the Scottish Enlightenment's brightest stars. Among the giants of the Scottish Enlightenment, the name of James Hutton is overlooked. Yet his Theory of the Earth revolutionised the way we think about how our planet was formed and laid the foundation for the science of geology. He was in his time a doctor, a farmer, a businessman, a chemist, yet he described himself as a philosopher, a seeker after truth. A friend of James Watt and of Adam Smith, he was a polymath publishing papers on subjects as diverse as why it rains and a theory of language. He shunned status and official position, refused to give up his strong Scots accent and vulgar speech, loved jokes and could start a party in an empty room. Yet much of his story remains a mystery. His papers, library and mineral collection all vanished after his death, and only a handful of letters survive. He seemed to be a lifelong bachelor yet had a secret son whom he supported throughout his life. This book uses new sources and original documents to bring Hutton the man to life and places him firmly among the geniuses of his time. Documents of the Assembly of the State of New York New York (State). Legislature. Assembly, 1892

Thomas Reid on Mathematics and Natural Philosophy Paul Wood, 2017-08-31 Thomas Reid was an intellectual polymath interested in all aspects of Enlightenment thought. Paul Wood reconstructs Reid's career as a mathematician and natural philosopher and shows how he grappled with Sir Isaac Newton's scientific legacy.
