Empire and Nation Eliga H. Gould, Peter S. Onuf, 2005-02-15 Publisher Description **I Saw Death Coming** Kidada E. Williams, 2023-01-17 Longlisted for the National Book Award in Nonfiction Shortlisted for the Museum of African American History's Stone Book Award National Council on Public History Book Award Honorable Mention A powerful and deeply moving LA Times reexamination of the struggle for survival in the Reconstruction era South and what it cost. The story of Reconstruction is often told from the perspective of the politicians, generals, and journalists whose accounts claim an outsized place in collective memory. But this pivotal era looked very different to African Americans in the South transitioning from bondage to freedom after 1865. They were besieged by a campaign of white supremacist violence that persisted through the 1880s and beyond. For too long their lived experiences have been sidelined, impoverishing our understanding of the obstacles post-Civil War Black families faced, their inspiring determination to survive, and the physical and emotional scars they bore because of it. In *I Saw Death Coming*, Kidada E. Williams offers a breakthrough account of the much-debated Reconstruction period, transporting readers into the daily existence of formerly enslaved people building hope-filled new lives. Drawing on overlooked sources and bold new readings of the archives, Williams offers a revelatory and in some cases minute-by-minute record of nighttime raids and Ku Klux Klan strikes. And she deploys cutting-edge scholarship on trauma to consider how the effects of these attacks would linger for decades, indeed generations, to come. For readers of Carol Anderson, Tiya Miles, and Clint Smith, *I Saw Death Coming* is an indelible and essential book that speaks to some of the most pressing questions of our times.

The Mind of the South Charles W. Eagles, 2011-08-23 This probing collection of essays assesses the wide influence of W. J. Cash and the profound effect of his classic dissection of southern history. Perhaps more than any other historian, W. J. Cash revolutionized the interpretation of southern identity. In 1941, when he published *The Mind of the South*, he exploded the correlated myths of the Cavalier South and the New South and gave historiography a new gauge for examining Dixie. In the half-century since its publication, Cash's book has lain in the path of every historian of the South. Not all, however, have expressed unified opinions about him, and his influence, though few can deny, how in the past fifty years his indelible and authoritative work has shaped the writing of southern history. In *The Mind of the South Fifty Years Later*, eleven scholars examine this classic study and assess its enduring importance. Bruce Clayton begins by discussing the biography of Cash and tracing his sources. In the subsequent five essays, Cash is praised, evaluated, criticized, defended, classified, and acknowledged to be the lion in the crossroads of southern historiography.

Writing the Civil War James M. McPherson, William J. Cooper, Jr., 2021-04-16 Studies diverse topics on the writing of Civil War history No event has transformed the United States more fundamentally or been studied more exhaustively than the Civil War In *Writing the Civil War* fourteen distinguished historians present a wide ranging examination of the vast effort to chronicle the conflict an undertaking that began with the remembrances of Civil War veterans and has become an increasingly prolific field of scholarship Covering topics from battlefield operations to the impact of race and gender this volume is an informative guide through the labyrinth of Civil War literature The contributors provide authoritative and interpretive evaluations of the study and explication of the struggle that has been called the American Iliad The first four essays consider military history Joseph Thomas Glatthaar writes on battlefield tactics Gary W Gallagher on Union strategy Emory M Thomas on Confederate strategy and Reid Mitchell on soldiers In essays that focus on political concerns Mark E Neely Jr links the military and political with

his examination of presidential leadership while Michael F Holt surveys the study of Union politics and George C Rable examines the work on Confederate politics Michael Les Benedict bridges political and societal concerns in his discussion of constitutional questions Phillip Shaw Paludan and James L Roark confront the broad themes of economics and society in the North and South and Drew Gilpin Faust and Peter Kolchin evaluate the importance of gender slavery and race relations Writing the Civil War demonstrates the richness and diversity of Civil War scholarship and identifies topics yet to be explored Noting a surprising dearth of scholarship in several areas the essays point to new directions in the quest to understand the complexities of the most momentous event in American history

Changing Woman Karen Anderson, 1997-07-24 While great strides have been made in documenting discrimination against women in America our awareness of discrimination is due in large part to the efforts of a feminist movement dominated by middle class white women and is skewed to their experiences Yet discrimination against racial ethnic women is in fact dramatically different more complex and more widespread and without a window into the lives of racial ethnic women our understanding of the full extent of discrimination against all women in America will be woefully inadequate Now in this illuminating volume Karen Anderson offers the first book to examine the lives of women in the three main ethnic groups in the United States Native American Mexican American and African American women revealing the many ways in which these groups have suffered oppression and the profound effects it has had on their lives Here is a thought provoking examination of the history of racial ethnic women one which provides not only insight into their lives but also a broader perception of the history politics and culture of the United States For instance Anderson examines the clash between Native American tribes and the U S government particularly in the plains and in the West and shows how the forced acculturation of Indian women caused the abandonment of traditional cultural values and roles in many tribes women held positions of power which they had to relinquish subordination to and economic dependence on their husbands and the loss of meaningful authority over their children Ultimately Indian women were forced into the labor market the extended family was destroyed and tribes were dispersed from the reservation and into the mainstream all of which dramatically altered the woman's place in white society and within their own tribes The book examines Mexican American women revealing that since U S job recruiters in Mexico have historically focused mostly on low wage male workers Mexicans have constituted a disproportionate number of the illegals entering the states placing them in a highly vulnerable position And even though Mexican American women have in many instances achieved a measure of economic success in their families they are still subject to constraints on their social and political autonomy at the hands of their husbands And finally Anderson cites a wealth of evidence to demonstrate that in the years since World War II African American women have experienced dramatic changes in their social positions and political roles and that the migration to large urban areas in the North simply heightened the conflict between homemaker and breadwinner already thrust upon them Changing Woman provides the first history of women within each racial ethnic group tracing the meager progress they

have made right up to the present Indeed Anderson concludes that while white middle class women have made strides toward liberation from male domination women of color have not yet found in feminism any political remedy to their problems

A People's Contest Phillip Shaw Paludan,1996 Pt 1 Learning war Communities go to war Forging foreign and domestic weapons The ways of making war The dialogue of politics 1861 1862 pt 2 Making war Congress and the capitalists Congress and the second American system Agriculture and the benefits of war Industrial workers and the costs of war The meanings of emancipation The dialogue of politics loyalty and unity 1863 1864 pt 3 Finding war's meanings World images of war Frankenstein and Everyman Sherman Grant and modern war The scars of war The coming of the Lord religion in the Civil War era Conclusion
