extended study duration may be necessary to bring some categories of learners to a level of parity with the readiness expectations of their course of study Even so this transformative strategic imperative has been plagued by a range of challenges that include poor systems readiness poor selection mechanisms in the identification of ECP students poor numeracy and literacy amongst students and indifferent teacher involvement in ECPs This volume offers a rare insight into many of the above recognised challenges and in so doing provides critical matter for thought for educators within the higher education sector

Governance and the postcolony David Everatt, 2019-08-01 Civil society NGOs governments and multilateral institutions all repeatedly call for improved or good governance yet they seem to speak past one another Governance is in danger of losing all meaning precisely because it means many things to different people in varied locations This is especially true in sub-Saharan Africa Here the postcolony takes many forms reflecting the imperial project with painful accuracy Offering a set of multidisciplinary analyses of governance in different sectors crisis management water food security universities in different locales across sub-Saharan Africa and from different theoretical approaches network to adversarial network governance this volume makes a useful addition to the growing debates on how to govern It steers away from offering a correct definition of governance or from promoting a particular position on postcoloniality It gives no neat conclusion but invites readers to draw their own conclusions based on these differing approaches to and analyses of governance in the postcolony As a robust critical assessment of power and accountability in the sub-Saharan context Governance and the Postcolony Views from Africa brings together topical case studies that will be a valuable resource for those working in the field of African international relations public policy public management and administration *The*

South Africa International Monetary Fund. Statistics Dept., 2025-05-14 A technical assistance mission from the IMF's Statistics Department visited South Africa during October 7-18, 2024, to support the authorities in improving compilation and dissemination of Government finance statistics (GFS) and public sector debt statistics (PSDS). The mission worked with the South African Reserve Bank, National Treasury and Statistics South Africa on a number of issues, including the classification and definition of the general government, the classification of specific transactions in line with the Government Finance Statistics Manual 2014, the internal consistency of data, and the consistency of fiscal data published by the three different institutions.

No Last Place to Rest Dineo Skosana, 2025-02 *No Last Place to Rest* Coal Mining and Dispossession in South Africa is an exploration of the ongoing struggles faced by families whose lives have been upended by the relentless expansion of coal mining operations in the Mpumalanga and KwaZulu Natal provinces. These regions, burdened with the task of fulfilling the nation's energy needs and boosting the country's economy, witness daily the harsh realities of land dispossession that extend far beyond the mere loss of property. Dineo Skosana presents a compelling argument that dispossession remains a present-day reality and crisis, contradicting the notion that it is merely a relic of the past in the post-apartheid landscape. She challenges the narrow perspective that measures land loss in material and economic terms only. By considering the impact of grave relocations, a common occurrence in these mining-dominated locales, she demonstrates the profound spiritual anguish and dehumanisation communities endure as their lands are excavated and families lose their sacred connections with their ancestors. Skosana argues that the act of dispossession of both the living and the dead from their land wounds the collective soul of a people, eroding their cultural heritage, collective identity, and sense of belonging. This book offers a rich ethnographic account of the experiences, struggles, and resistance of the affected communities, as well as a critical analysis of the legal and policy frameworks that enable their exploitation. In relation to the land question in South Africa, *No Last Place to Rest* presents deep insights for communities, activists, and government sectors acting in support of social justice and redress.
