Nuclear Weapons Strengthening International Regime:

A National Security Strategy for a New Century National Security Council (U.S.),1999 **US Foreign Policy and Government Guide Volume 1 Important Information and Developments** IBP USA, **A National Security Strategy for a New Century** ,1999 **A National Security Strategy for a New Century** United States. Executive Office of the President,1998 **National Security Strategy of the United States (2010)** ,2010-10 Contents 1 Overview 2 Strategic Approach The Strategic Environment The World as It Is The Strategic Approach Pursuing Comprehensive Engagement Promoting a Just and Sustainable International Order Strengthening Nat Capacity 3 Advancing Our Interests Strengthen Security and Resilience at Home Disrupt Dismantle and Defeat Al Qa ida and Its Violent Extremist Affiliates in Afghanistan Pakistan and Around the World Reverse the Spread of Nuclear and Biological Weapons and Secure Nuclear Materials Secure Cyberspace Achieve Balanced and Sustainable Growth Accelerate Sustainable Development Values Promote Democracy and Human Rights Abroad International Order 4 Conclusion **Arms Control in the 21st Century** Oliver Meier,Christopher Daase,2013-05-02 This volume evaluates the impact of coercive arms control efforts to curb the spread of weapons of mass destruction in the twenty first century A new paradigm in arms control is gradually replacing the idea that mutually agreed restrictions on armaments can improve international security Thus Hedley Bull s classic definition of arms control as the cooperation between antagonistic pairs of states in military affairs needs to be amended by a new notion of coercive arms control as the set of non cooperative and non reciprocal measures to restrict the weapons or military capabilities of certain states This volume addresses the topic of how this ongoing paradigmatic shift will affect the effectiveness of arms control as a conflict management instrument While some argue that new instruments can complement and strengthen traditional multilateral and inclusive arms control regimes others maintain that conflicts and contradictions between coercive and cooperative arms control regimes will severely limit their effectiveness This volume provides a forum for academics and practitioners from around the globe to discuss these developments in depth and to assess the specific strengths and weaknesses of these new instruments of arms control This book will be of much interest to students of arms control global governance foreign policy and IR Security Studies in general ***Negotiating Radiation Protection in the Nuclear Age*** Maria Rentetzi,Angela N. H. Creager,M. Susan Lindee,2025-11-18 The development of nuclear technologies for war medicine and energy production dramatically increased the number of people exposed to artificial radioactivity and raised new stakes and questions about protecting them This volume examines how the establishment of standards and protocols for radiation protection was not only a technical process but also the byproduct of extensive and ongoing negotiations among scientists states international bodies lawyers economists companies unions and activists Over time exposed individuals whether Japanese survivors accident or fallout victims atomic veterans or workers have leveraged their own experiences of radiation exposure to challenge powerful institutions and their standards Contributors explore radiation risk and protection policies

across the globe from Japan to Canada the United Kingdom to North Africa and Spain to Greece They excavate the legal scientific diplomatic and personal challenges posed by radiation protection Chapters move from the individual and institutional to the global level arguing that issues of radiation exposure like so many other forms of risk are never merely personal but deeply often invisibly political and diplomatic *Global security* Great Britain: Parliament: House of Commons: Foreign Affairs Committee,2010-03-28 The Foreign Affairs Committee concludes that the UK has an extremely close and valuable relationship with the US in specific areas of co operation for instance in the fields of intelligence and security that the historic trading and cultural links between the two countries are profound and that the two countries share common values in their commitment to freedom democracy and the rule of law However the use of the phrase the special relationship in its historical sense to describe the totality of the ever evolving UK US relationship is potentially misleading and its use should be avoided The report examines key areas of co operation military and defence intelligence security nuclear Other sections cover the FCO s US network under unacceptable financial pressure the British political approach to UK US relations the future of the relationship The Committee believe the UK must continue to position itself closely alongside the US in the future recognising the many mutual benefits which flow from close co operation in particular areas But the UK needs to be less deferential and more willing to say no to the US on those issues where the two countries interests and values diverge
