Prime Big Deal Days Best Customer Service:

Customer Service for Hospitality and Tourism Simon Hudson, Louise Hudson, 2012-11-02 Customer service is of critical importance for the tourism and hospitality sector now more than ever before as customers are looking to increase value for money and are less forgiving of mediocre service. However, despite its importance, quality customer service is the exception rather than the norm in many parts of the world. *Customer Service for Hospitality and Tourism* is a unique text and vital to both students and practitioners as it explains not only the theory behind the importance of customer service but also acts as a guidebook for those wishing to put this theory into practice. In essence, it is the whys and hows of customer service. It is easy to read, very current, and full of references to all the latest research from both academic and practitioner literature. Chapters cover important topics such as the financial and behavioural consequences of customer service, consumer trends influencing service development, and maintaining a service culture. Managing service encounters, the importance of market research, building and maintaining customer relationships, providing customer service through the servicescape, the impact of technology on customer service, the importance of service recovery, and promoting customer service internally and externally. Key features include 'An At Your Service' Spotlight at the beginning of each chapter, focusing on the achievements of successful individuals related to the art of customer service. Each chapter contains a 'Service Snapshot' of short real-life cases to illustrate a particular concept or theoretical principle presented in the chapter. Detailed international Case Studies which cover a variety of sectors, organizations, and regions designed to foster critical thinking. The cases illustrate actual business scenarios that stress several concepts found in the chapter. They analyze customer service in the U.S., South America, South Africa, Europe, Russia, Australia, China, Canada, Korea, and Dubai. **Competitive Advantage of Customer Centricity** Sathit

Parniangtong, 2017-06-05 This book presents strategies that put the customer at the center of an enterprise. It elaborates on the reasons for viewing customers as assets that a firm needs to acquire, develop, and cultivate in order to generate profitable relationships and champion customer profitability as the metric for measuring business performance. Further, it advocates the need to provide solutions to customers' requirements with bundles of products and services. It broadens the definition of customer value beyond tangible benefits and price to include both tangible and intangible benefits and total ownership costs while embracing a variety of unique customer needs. The book highlights the value of business planning, marketing, and sales mechanisms and changing employee behavior to create lifelong, high-value, profitable customer relationships that satisfy the customer's needs. *Competitive Advantage of Customer Centricity* maps a new journey that entire organizations must undertake in order to achieve these lucrative goals. The Armed Forces Covenant in Action? Part 2: Accommodation Great Britain: Parliament: House of Commons: Defence Committee,2012 Evidence given to the Committee showed that Armed Forces personnel and their families valued accommodation very highly and saw it as part of their terms and conditions of employment and as promoting unit cohesion and support for families when personnel were deployed on operations The provision of accommodation was particularly important for those who were required to be mobile it was the only option allowing families to live together It is also clear that for many personnel Service Families Accommodation is the only affordable housing solution Indeed the Families Federation said that inquiries and complaints about accommodation account for more than half of the regular communications they receive So when the Committee considered the MoD s decision to halt upgrade work on accommodation for the next three years they saw it as damaging to the Covenant and recommended that the MoD look again urgently at the stoppage which in any case could well be a false economy In early 2012 the MoD began work on the New Employment Model looking at how Armed Forces personnel are employed One element of this is the Future Accommodation The Committee recommends that this project should be sufficiently flexible to meet the needs of the three individual Services by allowing sufficient variation to meet their differing needs They should also take account of the needs of personnel at different stages in their lives and careers Given the fragility of morale we recommend that the MoD should use a more effective communications strategy to keep Service families in the picture Becoming an Employer of Choice Judith
