Maggie is trying to adjust to civilian life back in quiet little Tenacity after working overseas. She feels for Braden and Delilah, but she has to make her son Cody her first priority. It will take a huge leap of faith for the two wary parents to find their way to each other and to the perfect blended family that could make them all complete. *LASSOED BY A MAVERICK*, *Montana Mavericks Behind Closed Doors* by Rochelle Alers. The Dorito Effect Mark Schatzker, 2015-05-05 A lively

and important argument from an award winning journalist proving that the key to reversing North America's health crisis lies in the overlooked link between nutrition and flavor In *The Dorito Effect* Mark Schatzker shows us how our approach to the nation's number one public health crisis has gotten it wrong The epidemics of obesity heart disease and diabetes are not tied to the overabundance of fat or carbs or any other specific nutrient Instead we have been led astray by the growing divide between flavor the tastes we crave and the underlying nutrition Since the late 1940s we have been slowly leeching flavor out of the food we grow Those perfectly round red tomatoes that grace our supermarket aisles today are mostly water and the big breasted chickens on our dinner plates grow three times faster than they used to leaving them dry and tasteless Simultaneously we have taken great leaps forward in technology allowing us to produce in the lab the very flavors that are being lost on the farm Thanks to this largely invisible epidemic seemingly healthy food is becoming more like junk food highly craveable but nutritionally empty We have unknowingly interfered with an ancient chemical language flavor that evolved to guide our nutrition not destroy it With in depth historical and scientific research *The Dorito Effect* casts the food crisis in a fascinating new light weaving an enthralling tale of how we got to this point and where we are headed We've been telling ourselves that our addiction to flavor is the problem but it is actually the solution We are on the cusp of a new revolution in agriculture that will allow us to eat healthier and live longer by enjoying flavor the way nature intended **Escape Rope** CC
