Demystifying Global Macroeconomics John E. Marthinsen, 2020-02-10 Demystifying Global Macroeconomics DGM provides readers with a practical working use of international macroeconomics For serious business and political leaders understanding the global interconnections in economic and financial markets is crucial for making informed and well timed decisions DGM takes the mystery out of seemingly complex economic interactions by providing an easy to understand framework within which to analyze the effects of economic social and political shocks to a nation's economy John E Marthinsen integrates the three major macroeconomic sectors which are the credit market goods and services market and foreign exchange market The author provides the reader with contemporary examples that virtually leap off the front pages of our daily news reports and confront business managers and politicians with choices and decisions to make For example DGM shows how to use macroeconomic tools and a global framework to analyze the effects of U S tariffs on China and China's tariffs on the United States Infrastructure spending Speculative capital outflows from nations under stress such as Argentina and Turkey and speculative capital inflows into safe haven countries such as Switzerland Demonetization in India Successfully fighting the opioid abuse problem in the United States Border adjustment tax Monetary policies Fiscal policies Marthinsen keeps readers visually engaged with the strategic use of figures tables charts and illustrative exhibits Demystifying Global Macroeconomics emphasizes the interaction among markets and equips readers with a macroeconomic perspective that will last and be used for years If you are adopting this book for a teaching course please contact Stefan Giesen degruyter.com to request additional instructional material **Startup Growth** Amelia Green, AI, 2025-02-28 Startup Growth offers a vital roadmap for entrepreneurs navigating the challenging world of scaling a business It addresses the core pillars of startup success strategic scaling funding acquisition and challenge mitigation The book argues that sustainable

growth isn't about luck but rather strategic planning and execution. For example, understanding market segmentation is crucial for efficient scaling; much like a targeted marketing campaign yields better results than a generic one. The book progresses logically, introducing core concepts before delving into detailed analysis of areas like financial planning and team building. It emphasizes a data-driven, adaptable approach, distinguishing itself from traditional business books focused on established corporations. Did you know that securing venture capital often requires a compelling investment pitch, a skill honed through frameworks presented in the book? Ultimately, *Startup Growth* synthesizes these concepts, demonstrating how they collectively drive sustainable growth through actionable frameworks and real-world case studies. **Rethinking EU**

VAT for P2P Distribution Cristina Trenta, 2015-09-24. Peer-to-peer (P2P) networks, decentralized group structures allowing anyone to easily download and share resources online, already play a critical role in the distribution of digital content. Most of the debate on P2P heretofore has focused on copyright issues. However, as the basis for legitimate business models, a number of companies have already quietly embraced P2P. It has a largely unknown and underestimated impact on taxation, with vast repercussions on the development of mature, profitable markets. This book analyses the current framing for digital and media supplies provided via P2P technologies through the lens of an interdisciplinary approach, drawing on tax law, computer science, economics, copyright law, and business studies. VAT concepts such as those of economic activity and taxable person, taxable transactions, consideration, barter, and taxable amount, and territoriality rules are discussed in connection with P2P, as is the evaluation of VAT liability for P2P operations in the presence of copyright infringement. Topics and issues considered include centralized and decentralized P2P networks, free-riding problems, identifying actors in P2P networks for VAT purposes, P2P and place of supply, and pros and cons of integrating P2P with taxation regimes and especially VAT systems. The analysis draws on a vast range of sources, including EU legislation and case law, tax law literature and doctrine, international conventions and treaties, Council of Europe and OECD documents, ECHR case law, and official documents and cases from key jurisdictions worldwide, offering the first thoroughly grounded approach to overcoming the lack of understanding and awareness of ongoing changes currently separating the digital economy and traditional taxation systems, and a solid platform for discussion to the diverse communities of researchers and professionals interested in P2P. *The Service Model Navigator* Kuno Schedler, Ali A. Guenduez, 2024-02-12. Strategies for innovative business models in public administration. Innovation in business models has long been a cornerstone in the private sector, and now its adoption is gaining momentum in the public sector. Leading this transformation, Kuno Schedler and Ali A. Guenduez present their groundbreaking work adapting the globally recognized Business Model Navigator to the public sector. *The Service Model Navigator*.
