Living with Algorithms Ignacio Siles, 2023-04-25 A nuanced account from a user perspective of what it's like to live in a datafied world We live in a media saturated society that increasingly transforms our experiences relations and identities into data others can analyze and monetize Algorithms are key to this process surveilling our most mundane practices and to many their control over our lives seems absolute In *Living with Algorithms* Ignacio Siles critically challenges this view by surveying user dynamics in the global south across three algorithmic platforms Netflix Spotify and TikTok and finds surprisingly a more balanced relationship Drawing on a wealth of empirical evidence that privileges the user over the corporate Siles examines the personal relationships that have formed between users and algorithms as Latin Americans have integrated these systems into the structures of everyday life enacted them ritually participated in public with and through them and thwarted them Sometimes users follow algorithms Siles finds and sometimes users resist them At times users do both Agency lies in the navigation of the spaces in between By analyzing what we do with algorithms rather than what algorithms do to us *Living with Algorithms* clarifies the debate over the future of datafication and whether we have a say in its development Concentrating on an understudied region of the global south the book provides a new perspective on the commonalities and differences among users within a global ecology of technologies

Privacy in the Age of Big Data Theresa Payton, Ted Claypoole, 2023-03-15 A thorough update to a classic in the field of privacy and big data We have a global privacy problem The average person provides more information about themselves to more outsiders than any time in history Corporations governments and even our neighbors can know where we are at times can quickly learn our preferences and priorities and see who we meet The past decade has brought deep changes in the collection of our private information the regulation of that collection and in people's sensitivity to loss of privacy The nascent privacy threatening technology trends of a decade ago have blossomed into relentless data capturing systems that police and companies have come to rely on To address the expansion of personal data capture entire data regulatory regimes have arisen throughout the world with new regulations added each year People are more concerned regulators are more aggressive yet data collection continues to increase with consequences around the world Social media use has fragmented in the past five years spreading personal information over dozens of platforms Even most of our new televisions have started collecting second by second information about our households recently and some of those televisions can recognize the individuals watching and the devices they carry Amazon just activated a new worldwide network using bandwidth from personal wifi of Echo devices and Ring security systems The beat of new intrusions never seems to end These data trends are relentless and yet response to the pandemic accelerated them Rapid development of contactless everything became the norm Contact tracing apps became acceptable QR codes for everything from menus to contact information were created quickly Businesses are faced with hybrid in office and remote workforces More people are dependent on online and mobile technologies for food medicine and even human connection And each of these contacts can be captured somewhere and logged in a file for marketing or surveillance People want to keep their lives private but they don't know how The second edition of *Privacy in the Age of Big Data* addresses the significant advances in data driven technology their intrusion deeper in our lives the limits on data collection newly required by governments in North America and Europe and the new security challenges of world rife with ransomware and hacking This thoroughly updated edition demonstrates personal privacy vulnerabilities and shows ways to live a safer more private life Other privacy books tend to focus deeply on the evils of large tech companies or more academic and technical concerns But *Privacy in the Age of Big Data* second edition helps regular people understand the privacy threats and vulnerabilities in their daily lives and will provide solutions for maintaining better privacy while enjoying a modern life Unlike other books this one shows what you can do to make a difference to understand your current digital footprint and what you need to do to claw back your privacy and secure it in the future While *PRIVACY IN THE AGE OF BIG DATA* will have cross sectional appeal to many demographics working adults 25 60 and CEOs and

Boards of businesses are the primary demographic young enough to know we need to do something to protect privacy and old enough to remember what happens when we haven't in the past With down to earth prose and examples pulled from daily life the writing style will attract buyers of all education levels **Museum Studies for a Post-Pandemic World** Leda Cempellin, Pat Crawford, 2024-05-17 Museum Studies for a Post Pandemic World demonstrates that digital literacy creativity and resilience as the COVID 19 pandemic has so vividly illustrated are now vital components of the classroom and of the curator's toolbox Museum studies students are increasingly asked to engage with new team dynamics and collaborative models often relocated to the virtual world Authored by academics cultural heritage partners students and alumni the chapters in this volume move beyond a consideration of the impact of digitisation to envision new strategies and pedagogies for fuller more sustainable approaches to cultural literacy exhibition and visitor engagement International case studies present models of collaborative practices between teams of diverse sizes and professional backgrounds The volume demonstrates that the COVID 19 pandemic has forced the use of a variety of pedagogically and culturally significant hybrid and virtual models that provide innovative learning modalities to meet the needs of future generations of digital native patrons This book offers meaningful strategies that will help academic and cultural heritage institutions engaged in museum studies to survive and even thrive in the face of future disasters by expanding programme accessibility beyond the physical confines of their buildings Museum Studies for a Post Pandemic World will be of interest to students and researchers engaged in the study of museums the arts cultural management and education It should also be of interest to museum practitioners around the world The Generation Alpha Parent's Guide to Digital Wellness Savannah Gloria Buxton,

Künstliche Intelligenz zwischen Ethik und Statistik Udo Milkau, 2025-09-30 In diesem Buch wird die Technik der Artificial Intelligence von ihren Grundlagen her d.h. Datensammlungen statistischen Werkzeugen und Schätzung für neue Ereignisse betrachtet und daran die Frage diskutiert ob denn Technik ethisch sein kann Dabei zeigt sich ein Spannungsfeld zwischen im öffentlichen Diskurs oft behandelten Narrativen wie Artificial Intelligence wahrgenommen wird und den technischen Grundlagen welche ein Verständnis von angewandter Statistik erfordern Während diese Narrative oft von self learning autonomous oder sogar thinking ausgehen führt die Technik aber nur das aus was Menschen programmiert haben oder Nutzer durch ihre Eingaben abrufen Wenn Ethik die Frage des richtigen Handelns ist dann betrifft dies immer die Entwickler Betreiber und Nutzer solcher technischen Werkzeuge denn diese sind immer nur Objekte aber nie Subjekte von ethischen Fragen Dazu bedarf es immer eines Verständnisses der Statistik als Grundlage und eines verantwortlichen Umgangs mit den dabei genutzten Daten *Coaching Lacrosse* Travis Taylor, Yianni Kyriacou, 2024-01-05 A primer on different approaches to coaching lacrosse with a particular focus on player or athlete centred coaching Taylor guides readers through techniques like technical and self reflection behavioural cognitive and constructivist coaching approaches strength and conditioning routines developing coaching philosophies and more At the core of the text is a push to move away from authoritative coaching to a

more communicative self reflective coaching that connects with athletes and thinks about their short and long term goals The use of demonstrative characters like Bob who represents traditional approaches to coaching and storytelling to demonstrate the text s concepts is a central part of Taylor s approach **Management Today** Terri A. Scandura, Frankie J.

Weinberg, 2023-11-04 Integrating core management concepts with evidence based research and strategies Management Today Second Edition provides students of all backgrounds with the foundations they need to start and enhance their careers Authors Terri A Scandura and Frankie J Weinberg share their experiences as active researchers and award winning teachers throughout the book to engage and inspire the next generation of managers Students can apply what they have learned through self assessments reflection exercises and experiential activities Real world case studies explore business scenarios students may encounter throughout their own careers Practical concise and founded upon cutting edge research this text equips students with the necessary skills to become impactful members of today s business world **The Routledge**

Companion to Media Fandom Melissa A. Click, Suzanne Scott, 2025-03-24 This companion brings together an internationally and interdisciplinarily diverse group of emerging and established fan studies scholars to reflect on the state of the field and to chart new directions for research Engaging an impressive array of media texts and formats and incorporating a variety of methodologies this collection is designed to survey complicate and expand core concerns This second edition includes 20 new chapters 11 revised chapters and 12 reprinted chapters organized into four main sections Methods Ethics and Theoretical Approaches Fan Practices and Platforms Identities and Industry and Labor Each section features a short introduction that discusses the section s scope and contributions highlights the importance of the section s topic to fan studies and offers suggestions for further reading This collection remains an essential volume for students and scholars interested in fandom and fan studies popular culture media studies and film and television studies Internet Memes and Copyright Law Brian Chun Lok Leung, 2025-09-30 This book explores the intricate relationship between copyright law and internet meme culture challenging an assumption that copyright is a barrier to digital creativity Using the lens of internet memes to analyse copyright law in the context of participatory remix culture the book confronts a common perception that copyright is the destroyer of internet memes on social media platforms Following the European Union s Copyright Directive widely known as the Meme Ban this book critically examines whether copyright might instead be reimaged to foster rather than inhibit re creations that define internet meme culture The book argues that this culture directly challenges copyright s core assumptions and proposes a new holistic approach to copyright that distinguishes between traditional and emergent forms of creative processes Arguing for a flexible interpretation of copyright that limits private proprietary rights in the case of internet memes it provides a legal framework to support socio cultural discourse without undermining copyright s foundational principles Covering core copyright concepts such as authorship idea expression originality fair dealing and user rights the book provides a compelling argument as to how copyright can adapt to the digital age as a protector of cultural

expressions ensuring that internet memes are not only preserved but celebrated The book will be of interest to researchers in the field of copyright law the law of emerging technologies and intellectual property law **The De Gruyter Handbook of Automated Futures** Vaike Fors,Martin Berg,Meike Brodersen,2024-09-23 How does automation affect us our environment and our imaginations What actions should we take in response to automation Beyond grand narratives and technology driven visions of the future what more can automation offer With these questions in mind The De Gruyter Handbook of Automated Futures provides a framework for thinking about and implementing automation differently It consolidates automated futures as an inter and transdisciplinary research field embedding the imaginaries interactions and impacts of automation technology within their social historical societal cultural and political contexts Promoting a critical yet constructive and engaging agenda the handbook invites readers to collaborate with rather than resist automation agendas It does so by pushing the agenda for social science humanities and design beyond merely assessing and evaluating existing technologies Instead the handbook demonstrates how the humanities and social sciences are essential to the design and governance of sustainable sociotechnical systems Methodologically the handbook is underpinned by a pedagogical approach to staging co learning and co creation of automated futures with rather than simply for people In this way the handbook encourages readers to explore new and alternative modes of research fostering a deeper engagement with the evolving landscape of automation **Principles and Practice of Sport Management with Navigate Advantage Access** Lisa Pike
