The Storyteller's Dilemma Louis Hernandez Jr, 2017-03-01 Book Human beings are natural storytellers and it's never been easier to access digital technologies that allow anyone anywhere to share their story with the world. More stories are being produced and consumed now than at any other time in our species history yet for some reason it's never been more difficult to cut it as a creative. Consumers are paying less if anything for all forms of entertainment; traditional media companies are tanking and the advertising realm has been turned on its head. Although operating budgets have increased in every sector, storytellers are making less than ever before as the lion's share of new revenues cyclically feed mechanisms for distribution and monetization. Our media landscape is in short unsustainable and in the midst of a crisis. What went wrong? How can we fix it? Although he presides over Avid, the leading provider of audio and video technology for creatives and media professionals, Louis Hernandez Jr isn't your typical multinational CEO. In his two previous books, *Too Small to Fail* and *How the Financial Industry Crisis Changed the World's Perceptions*, and *Saving the American Dream: Main Street's Last Stand*, he chartered his vision of an egalitarian America structured around the communities that compose its very foundation. He brings the same mindset, the same notion of countless small actors with unlimited potential to the tumultuous world of media with his third book, *The Storyteller's Dilemma: Overcoming the Challenges in the Digital Media Age*. In *The Storyteller's Dilemma*, Hernandez puts forth another comprehensive vision for our future that aims to advantage all while disadvantaging none. This book is neither a diatribe against economic elites nor a postmortem analysis of the ills of digital distribution. Instead, it proposes a new approach with the potential to benefit all involved parties, an approach that at once embraces the intensifying power of storytelling and eschews the notion that disruption and instability must greet an industry hand in hand. Rather than favoring any given group over another, Hernandez imagines a streamlined world of shared platforms and common standards that empower storytellers, developers, and deliverers alike. By dispensing of business models that have proved unviable in the digital age, we can turn higher profits while more equitably compensating creatives and creative endeavors. In today's networked world, the economics of storytelling matters to everybody. It's time we all got onboard.

Time Is Now Philipp Schnyder von Wartensee, 2016-10-06 Die Schweizer Popmusik ist längst in der Mitte der Gesellschaft angekommen und seit einigen Jahren feiern jüngere Musikerinnen und Musiker auch international Erfolge. Etwa Sophie Hunger, Bonaparte und Valeska Steiner von Boy. Und seit Ende der Neunzigerjahre hat sich eine kreative Umgebung entfaltet, zu der neben den Musikern auch Clubs, Festivals, Labels, Radiostationen, Szenenmagazine und anderes mehr gehören. Und doch gelten Popmusiker in der Schweiz noch immer als Amateure. Dass ihre Erfolge Resultat harter Arbeit, einem breiten Networking und auch jahrelanger Förderung sind, wird kaum wahrgenommen. Time is now thematisiert diese Situation mit Hilfe von Geschichten und Analysen und will das Bewusstsein für die Vielfalt, die Professionalität, aber auch für die Herausforderungen der Popszene fördern. Das Buch richtet sich dabei an Musikinteressierte in der Schweiz sowie an Musikprofis im

deutschsprachigen Ausland Seit rund zwanzig Jahren fördert das Migros Kulturprozent die Popkultur und hat damit zum wachsenden Erfolg dieser Kultursparte beigetragen

Creative Tools and the Softwarization of Cultural Production

Frédéric Lesage, Michael Terren, 2024-01-17 This book explores how creativity is increasingly designed marketed and produced with digital products and services a process referred to as softwarization If being creative has developed into one of the paradigmatic architectures of power for framing the contemporary subject then an essential component of this architecture involves its material and symbolic configuration through tools From image editors to digital audio workstations video editors to game engines these modern tools are used by creatives every day and mastering these increasingly complex technologies is now a near compulsory pathway to creative work Despite their ubiquity in cultural production few have sought to theorize them in aggregate and with interdisciplinary breadth By bringing disparate creative and methodological traditions in one volume this book provides a comprehensive overview of approaches for understanding this complex emerging and dynamic field that speaks beyond the disciplinary categories of tool instrument and or software It makes a unique intervention in the fields of cultural production and the cultural and creative industries
