Stephanie Dennison, Lisa Shaw, 2004-11-27 The recent international success of films such as *Central Station* and *City of God* has stimulated widespread interest in Brazilian film. This study provides insight into the Brazilian films that have most captured the imagination of domestic audiences over the years. This book focuses on individual films in their socio historical context drawing on extensive fieldwork in Brazil and Latin America. It argues that Brazilian cinema has almost always been grounded in intrinsically home grown cultural forms dating back to the nineteenth century including the Brazilian music hall, the traveling circus, radio shows, carnival and later comedy television. Combining a chronological structure with new research and a lively approach, *Popular cinema in Brazil* is the ideal introduction to Brazilian cinema.

Setting Slavery's Limits

Christopher H. Bouton, 2019-11-20 Using slave trials from antebellum Virginia, Christopher H. Bouton offers the first in depth examination of physical confrontations between slaves and whites. These extraordinary acts of violence brought the ordinary concerns of enslaved Virginians into focus. Enslaved men violently asserted their masculinity, sought to protect themselves and their loved ones from punishment and carved out their own place within southern honor culture. Enslaved women resisted sexual exploitation and their mistresses. By attacking southern efforts to control their sexuality and labor, bondswomen sought better lives for themselves and undermined white supremacy. Physical confrontations revealed the anxieties that lay at the heart of white antebellum Virginians and threatened the very foundations of the slave regime itself. While physical confrontations could not overthrow the institution of slavery, they helped the enslaved set limits on their owners' exploitation. They also afforded the enslaved the space necessary to create lives as free from their owners' influence as possible. When masters and mistresses continually intruded into the lives of their slaves, they risked provoking a violent backlash. *Setting Slavery's Limits* explores how slaves of all ages and backgrounds resisted their oppressors and risked everything to fight back.

Setting the Agenda

Maxwell McCombs, Sebastian Valenzuela, 2020-11-18 News media strongly influence how we picture public affairs across the world, playing a significant and sometimes controversial role in determining which topics are at the centre of public attention and action. *Setting the Agenda*, first published in 2004, has become the go to textbook on this crucial topic. In this timely third edition, Maxwell McCombs, a pioneer of agenda setting research, and Sebastian Valenzuela, a senior scholar of agenda setting in Latin America, have expanded and updated the book for a new generation of students. In describing the media's influence on what we think about and how we think about it, *Setting the Agenda* also examines the sources of media agendas, the psychological explanation for their impact on the public agenda, and their consequences for attitudes, opinions, and behaviours. New to this edition is a discussion of agenda setting in the widened media landscape, including a full chapter on network agenda setting and a lengthened presentation on agenda melding. The book also contains expanded material on social media and the role of agenda setting beyond the realm of public affairs, as well as a foreword from Donald L. Shaw and David H. Weaver, the co
