The Influentials Edward Keller, Jonathan Berry, 2003-02-10 One American in ten tells the other nine where to shop what to buy even how to vote The Influentials tells who they are and how they can be influenced Who are they The most influential Americans the ones who tell their neighbors what to buy which politicians to support and where to vacation are not necessarily the people you'd expect They're not America's most affluent ten percent or best

educated ten percent They re not the early adopters always the first to try everything from Franco Polynesian fusion cooking to digital cameras They are however the 10 percent of Americans most engaged in their local communities and they wield a huge amount of influence within those communities They re the campaigners for open space initiatives They re church vestrymen and friends of the local public library They re the Influentials and whether or not they are familiar to you they re very well known to the researchers at RoperASW For decades these researchers have been on a quest for marketing s holy grail that elusive but supremely powerful channel known as word of mouth What they ve learned is that even more important than the word what is said is the mouth who says it They ve identified studied and analyzed influence in America since the Standard Oil Company of New Jersey now Exxon hired Elmo Roper himself to develop a model for identifying opinion leaders and in The Influentials they are finally ready to share their results A few samples Influentials have been the early majority leading indicators of what Americans will be buying for more than five decades from choosing energy efficient cars in the 1970s to owning computers in the 1980s to adopting 401 k s and IRAs in the 1990s to using the Internet and cell phones today Influentials have led the way in social development as well from the revival of self reliance in managing their own health care investments and consumption to mass skepticism about the marketing claims of everything from breakfast food to politicians Although America s Influentials have always been powerful they ve never been more important than now Today a fragmented market has made it possible for Influentials to opt out of mass message advertising which means that a different route must be taken to capture their hearts and minds The Influentials is a map for that route a map that explains who these people are how they exercise influence and how they can be targeted The Influentials features a series of rules and guidelines for marketing to Influentials case studies of products that have prospered because of Influential marketing and products that have failed because they lacked it a history of the phenomenon and why Influentials are more influential today than ever and profiles of twelve real life Influentials Both an intellectual adventure and a hands on marketing manual The Influentials is an extraordinary gold mine of information and analysis that no business can afford to ignore **The Best**
