immediate and continued use Apocalyptic Dread Kirsten Moana Thompson, 2012-02-01 In *Apocalyptic Dread* Kirsten Moana Thompson examines how fears and anxieties about the future are reflected in recent American cinema Through close readings of such films as *Cape Fear* *Candyman* *Dolores Claiborne* *Se7en* *Signs* and *War of the Worlds* Thompson argues that a longstanding American apocalyptic tradition permeates our popular culture spreading from science fiction and disaster films into horror crime and melodrama Drawing upon Kierkegaard's notion of dread that is a fundamental anxiety and ambivalence about existential choice and the future Thompson suggests that the apocalyptic dread revealed in these films and its guiding tropes of violence retribution and renewal also reveal deep seated anxieties about historical fragmentation and change anxieties that are in turn displaced onto each film's particular monster whether human demonic or eschatological

Transmedia Storytelling and the Apocalypse Stephen Joyce, 2018-08-21 This book confronts the question of why our culture is so fascinated by the apocalypse It ultimately argues that while many see the post apocalyptic genre as reflective of contemporary fears it has actually co evolved with the transformations in our mediascape to become a perfect vehicle for transmedia storytelling The post apocalyptic offers audiences a portal to a fantasy world that is at once strange and familiar offers a high degree of internal consistency and completeness and allows for a diversity of stories by different creative teams in the same story world With case studies of franchises such as *The Walking Dead* and *The Terminator* *Transmedia Storytelling and the Apocalypse* offers analyses of how shifts in media industries and reception cultures have promoted a new kind of open world building narrative across film television video games and print For transmedia scholars and fans of the genre this book shows how the end of the world is really just the beginning The Apocalypse Is Everywhere Anne Rehill, 2009-11-12 This wide ranging exploration of the

Project, 2016 The concept of extraterritoriality designates certain relationships between space law and representation This collection of essays explores contemporary manifestations of extraterritoriality and the diverse ways in which the concept has been put to use in various disciplines Some of the essays were written especially for this volume others are brought here together for the first time The inquiry into extraterritoriality found in these essays is not confined to the established boundaries of political conceptual and representational territories or fields of knowledge rather it is an invitation to navigate the margins of the legal juridical and the political but also the edges of forms of representation and poetics Within its accepted legal and political contexts the concept of extraterritoriality has traditionally been applied to people and to spaces In the first case extraterritorial arrangements could either exclude or exempt an individual or a group of people from the territorial jurisdiction in which they were physically located in the second such arrangements could exempt or exclude a space from the territorial jurisdiction by which it was surrounded The special status accorded to people and spaces had political economic and juridical implications ranging from immunity and various privileges to extreme disadvantages In both cases a person or a space physically included within a certain territory was removed from the usual system of laws and subjected to another In other words the extraterritorial person or space was held at what could be described as a legal distance In this respect the concept of extraterritoriality presupposes the existence of several competing or overlapping legal systems It is this notion of being held at a legal distance around which the concept of extraterritoriality may be understood as revolving

Religious Imaginaries Karen Dieleman, 2012-10-02 Explores liturgical practice as formative for how three Victorian women poets imagined the world and their place in it and consequently for how they developed their creative and critical religious poetics This new study rethinks several assumptions in the field that Victorian women's faith commitments tended to limit creativity that the contours of church experiences matter little for understanding religious poetry and that gender is more significant than liturgy in shaping women's religious poetry Exploring the import of bodily experience for spiritual emotional and cognitive forms of knowing Karen Dieleman explains and clarifies the deep orientations of different strands of nineteenth century Christianity such as Congregationalism's high regard for verbal proclamation Anglicanism's and Anglo Catholicism's valuation of manifestation and revivalist Roman Catholicism's recuperation of an affective aesthetic Looking specifically at Elizabeth Barrett Browning Christina Rossetti and Adelaide Procter as astute participants in their chosen strands of Christianity Dieleman reveals the subtle textures of these women's religious poetry the different voices genres and aesthetics they create in response to their worship experiences Part recuperation part reinterpretation Dieleman's readings highlight each poet's innovative religious poetics Dieleman devotes two chapters to each of the three poets the first chapter in each pair delineates the poet's denominational practices and commitments the second reads the corresponding poetry *Religious Imaginaries* has appeal for scholars of Victorian literary criticism and scholars of Victorian religion supporting its theoretical paradigm by digging deeply into primary sources associated with the actual churches in

which the poets worshipped detailing not only the liturgical practices but also the architectural environments that influenced the worshipper's formation. By going far beyond descriptions of various doctrinal positions, this research significantly deepens our critical understanding of Victorian Christianity and the culture it influenced. **Frame Escapes: Graphic Novel**

Intertexts Mikhail Peppas, Sanabelle Ebrahim, 2019-07-22. This volume was first published by Interdisciplinary Press in 2016. The graphic narrative in merging text with image showcases an experiential panorama of visceral emotions for the users. Central to the format are considerations about the place of the image story in history and location. Both the comic and the graphic novel appropriate and are appropriated by diverse media in the enactment of individual social and cultural identity. Intermediality morphs literature into pictures, films into graphic fiction, images into frames, and incorporates a host of flexible production values linked to high and low graphic arts. The structure of the graphic novel, city imaging, food fetishes, autographics, parallel worlds, Superhero guises, character patterning, and shifting identities are explored in the eclectic volume by a range of authors using multimodal devices to analyse the composition, reading, and interpretation of graphic narratives. The unstoppable momentum of holistic literature promises a converged means of expression that transcends the separation of print, digital, and screen, while transporting the dialogue about comics into a central scenario of popular culture. Throughout the story stands strong in parallel with the probing of key concepts such as boundary transgression, moral searching, and the predictiveness of frame casting that allows feedback between the comic book frame and the silhouette of the future city.

During the first dozen years of the twenty-first century, apocalyptic anticipation in America has leapt from the cultish to the mainstream. Today, nearly 60 percent of Americans believe that the events foretold in the book of Revelation will come true. But many secular readers also seem hungry for catastrophe and have propelled books about peak oil, global warming, and the end of civilization into bestsellers. How did we come to live in a culture obsessed by the belief that the end is near? *The Last Myth* explains why apocalyptic beliefs are surging within the American mainstream today. Demonstrating that our expectation of the end of the world is a surprisingly recent development in human thought, the book

reveals the profound influence of apocalyptic thinking on America's past, present and future *Recoded City* Thomas Ermacora, Lucy Bullivant, 2016-07-01 *Recoded City* examines alternative urban design, planning and architecture for the other 90% namely the practice of participatory placemaking, a burgeoning practice that co-author Thomas Ermacora terms recoding. In combining bottom-up and top-down means of regenerating and rebalancing neighbourhoods affected by declining welfare or struck by disaster, this growing movement brings greater resilience. *Recoded City* sheds light on a new epoch in the relationship between cities and civil society by presenting an emerging range of collaborative solutions and distributed governance models. The authors draw on their own fresh research of global pioneers forging localist design strategies, public realm interventions and new stakeholder dynamics. As the world becomes increasingly digital and virtual, a myriad of online tools and technological options is becoming available. These give unprecedented co-creation opportunities to communities and professionals alike, yielding the benefits of a more open DIY society. Because of its close engagement with people, place and local identity, the field of participatory placemaking has huge untapped potential. Responding to the challenges of the Anthropocene era, *Recoded City* is for decision makers, developers and practitioners working globally to make better and more liveable cities.
