Ferrars, Edward D Hoch, 2014-03-19 Dr Sam Hawthorne a New England country doctor in the first half of the twentieth century was constantly faced by murders in locked rooms and impossible disappearances Nothing Is Impossible contains fifteen of Dr Sam's most extraordinary cases solved between 1932 and 1936 including A circus acrobat who vanishes from a trapeze An invisible weapon Murder in a cabin surrounded by unmarked snow Murder in a locked house surrounded by an electrified fence A haunted teepee The vanishing of a teenage girl from her blue bicycle And eight other ingenious problems for Dr Sam Edward D Hoch was the most ingenious of modern mystery writers He was author of more than 900 short stories winner of the Edgar Award former President of the Mystery Writers of America and contributor to every issue of Ellery Queen's Mystery Magazine since 1973 until his death in 2008 As John Dickson Carr remarked Satan himself would be proud of his ingenuity *The Supernatural and Fantastic in Short Detective Fiction* Laird R. Blackwell, 2020-10-30 Although

fantasy and supernatural literature have long and celebrated histories many critics contend that the fantastic and the supernatural have no place in the logical rational world of the detective story This book is the first extensive study of the fantastic in detective fiction and it explores the highly debated question of whether detective fiction and the fantastic can comfortably coexist The locked room mystery which often uses the fantastic as a red herring to eventually be debunked by reason and logic has long been among the most popular subgenres of detective fiction This book also explores stories featuring almost supernaturally gifted detectives stories where the supernatural is truly encountered and stories with ambiguous endings Close to 500 detective stories from 1841 to 2000 in which the fantastic or supernatural plays a central role are discussed and analyzed Although not all the stories are judged to be successful as detective tales in the great majority the fantastic enlivens the tale and deepens the mystery without weakening the detective elements **Frederic**

Other Stories Ellery Queen, Josh Pachter, 2025-03-27 A collection more than half a century in the making The discerning reader will recall that the two cousins who wrote as Ellery Queen published five short stories about the Puzzle Club and its newest member Ellery Queen himself in the 1960s and 70s Fifty years later Josh Pachter picked up the gauntlet and gave us five more tales of the Puzzle Club each as baffling as the original five each with an introduction by a family member friend or aficionado of Mr Queen In addition to the ten Puzzle Club stories are four that introduce the Griffen family and E Q Griffen who solves problems as confusing as those presented to his namesake These stories were written by Pachter and introduced by Frederic Dannay one of the two cousins who made up the EQ partnership
