Maths Mastery Reasoning: Photocopiable Resources KS1 John Bee, 2020-07-23 Maths Mastery Reasoning Teacher Resources KS1 contains a wealth of practical ideas and photocopiable resources to promote reasoning using precise mathematical vocabulary and stem sentences. It will enable teachers to explicitly teach children how to reason so they can answer questions such as Which skills do I need to complete the task? How can I explain my thinking? What vocabulary do I need to use? Covering all areas of the primary maths curriculum including place value, fractions and the four operations, each photocopiable activity enables pupils to practise key skills and make links to the maths they are using. Many of the activities can be completed using a concrete, pictorial and abstract CPA approach to teaching maths. Written by experienced teacher John Bee, this must-have resource is ideal for teachers just starting on the maths mastery journey or for more experienced teachers who need some fresh input and ideas. This unique book will engage pupils in lively debate when they hypothesise, agree, criticise and prove their learning around key mathematical concepts. A companion book for Key Stage 2 is also available. Please note that the PDF eBook version of this book cannot be printed or saved in any other format. It is intended for use on interactive whiteboards and projectors only.

Supporting Children with Dyslexia Hull City Council, 2016-04-14 Completely revised and updated in light of the new 2014 SEND Code of Practice, this second edition of Supporting Children with Dyslexia provides valuable advice and resources for teachers, TAs and SENCOs supporting pupils on the dyslexic spectrum. This practical resource will help those who are looking for expert guidance and strategies as well as providing a professional development tool which will encourage outstanding practice at all levels. Spanning pre-school, primary and secondary teaching, this book covers the key areas to be considered when supporting pupils with dyslexia, including how to identify a young person with dyslexia, practical strategies for pre-school, primary and secondary settings, useful advice to give to parents and carers of children and young people with dyslexia, useful materials for continual professional development. Featuring helpful checklists, templates and photocopiable resources, this book provides guidance and practical strategies for identifying and supporting young people with dyslexia that will be of use to teachers, TAs, SENCOs and other educational professionals.

Year One in Action Anna Ephgrave, 2017-03-16 Children are hard-wired to learn and they learn best by being active and autonomous, exploring, discovering, creating and taking risks. In other words, by playing. However, formal subject-specific lessons and a focus on data targets and unrealistic expectations are causing young children to be bored and stressed, and this is stifling their learning. Year One in Action reveals the remarkable progress children can make when they are allowed to pursue their own interests, ideas and challenges in a superb and enabling environment supported by responsive, skilled and empathic staff. Demonstrating how a child-led approach supports the development of purposeful, calm, confident and independent children, this book offers a unique month-by-month insight into the workings of a highly successful Year One class. It covers all aspects of practice from timetabling, adult roles and

transitions to the organisation of the classroom and outside area It tracks the events of each month in the year paying close attention to the physical environment and the learning that is taking place Interactions between staff and children are recognised as and exploited as teaching opportunities Throughout the book Anna Ephgrave gives the reasons behind each decision made She also explains what the outcomes have been for the children emphasising that a child led approach with planning in the moment enables rich learning across the curriculum for all children within a meaningful context Key features include over 150 full colour photographs to illustrate practice photocopiable pages of planning sheets record keeping sheets and sample letters to parents examples of individual learning journeys and planning in the moment guidance on what to look for when assessing children s progress advice on risk benefit assessments suggestions for managing transitions and minimising stress The achievements of these children have been remarkable and they have remained the enthusiastic independent happy and unique individuals that they were when they came into Year One Written by a leading consultant teacher this book will inspire teachers to be brave and do what is right for children let them take the lead trust that they want to learn and above all let them play *Multiplication and Division Ages 7-9: Ideal for Home Learning (Collins Easy Learning KS2)* Collins Easy Learning,2015-06 This fun range of Maths and English activity books really helps to boost your child s progress at every stage of their learning The series builds important skills in line with their learning at school
