

READING COMPREHENSION

Read the short story and answer the questions!

Today is Mother's Day, but Jenny forgot to get her mother a present! Oh no! What is Jenny going to do? What can Jenny buy for her mother? She runs to her piggy bank to count her coins. Jenny only has 27 cents. "That is not enough to buy a present," said Jenny. "Maybe I can make her a present," thought Jenny! She ran to the craft closet. Jenny got paper, glue, glitter, and markers. She created the most beautiful poem and card for her mother. Jenny also picked white flowers and put them in a pot. Her mother said it was the best gift ever!

What would be a good title for the story?

1. What would be a good title for the story?

2. What is the problem in the story?

3. What gift does Jenny give to her mother?

4. What would you like to give your mother for Mother's Day?

Computational Dependency Theory Eva Hajicová, Leo

Wanner, 2013-12-03 Dependencies directed labeled graph structures representing hierarchical relations between morphemes words and semantic units are the standard representation in many fields of computational linguistics The linguistic significance of these structures often remains vague however and those working in the field stress the need for the development of a common notational and formal basis Although dependency analysis has become quasi hegemonic in Natural Language Processing NLP the connection between computational linguistics and dependency linguists remains sporadic But theoretical dependency linguists and computational linguists have much to share This book presents papers from the International Conference on Dependency Linguistics Depling 2011 held in Barcelona Spain in September 2011 Beginning with what may be the first formal definition of dependency structure the book continues with papers covering subjects such as the interface of the syntactic structures with semantics mapping semantic structures to text surface by means of statistical language generation formalization of dependency advances in dependency parsing and the link between statistical and rule based dependency parsing This comprehensive collection gives a coherent overview of recent advances in the interplay of linguistics and natural language engineering around dependency grammars ranging from definitional challenges of syntactic functions to formal grammars tree bank development and parsing issues

Beyond Leveled Books Karen Szymusiak, Franki Sibberson, Lisa Koch, 2008 In the first edition of Beyond Leveled Books Franki Sibberson and Karen Szymusiak offered a much needed perspective on moving transitional readers from the basic

supports of leveling to independent book selection Seven years later drawing on their continued research and expanding roles as authors and literacy consultants Franki and Karen along with colleague Lisa Koch present a new updated and expanded edition of this useful and eye opening book Education Reviews 2001 In Beyond Leveled Books Second Edition the authors provide even more resources to help teachers understand and meet the needs of transitional readers The key topic of series books has been revised and enlarged with charts outlining new series with the challenges they pose and supports readers need New lessons have been added and most chapters now include a related article from a literacy expert Some of the contributors include Kathy Collins Larry Swartz and Mary Lee Hahn The book also features an entirely new section covering grades K 1 that explores the uses and limitations of leveled texts in primary reading instruction Among the highlights of this new section are ideas for how to organize your classroom library and a list of great books to use alongside leveled text in supporting new readers Packed with examples of classroom instruction sample mini lessons strategies for small group instruction assessment techniques and student work this new edition expands what was once a great little book that filled a gap for teachers in intermediate grades into an essential resource for independent reading instruction from grades K 5

Growing Readers Kathy Collins, 2004 Primary grade teachers face an important challenge teaching children how to read while enabling them to build good habits so they fall in love with reading Many teachers find the independent reading workshop to be the component of reading instruction that meets this challenge because it makes it possible to teach the reading skills and strategies children need and guides them toward independence intention and joy as readers In Growing Readers Kathy Collins helps teachers plan for independent reading workshops in their own classrooms She describes the structure of the independent reading workshop and other components of a balanced literacy program that work together to ensure young students grow into strong well rounded readers Kathy outlines a sequence of possible units of study for a yearlong curriculum Chapters are devoted to the individual units of study and include a sample curriculum as well as examples of mini lessons and reading conferences There are also four Getting Ready sections that suggest some behind the scenes work teachers can do to prepare for the units Topics explored in these units include print and comprehension strategies reading in genres such as poetry and nonfiction connecting in school reading and out of school reading developing the strategies and habits of lifelong readers A series of planning sheets and management tips are presented throughout to help ensure smooth implementation We want our students to learn to read and we want them to love to read To do this we need to lay a foundation on which children build rich and purposeful reading lives that extend beyond the school day The ideas found in Growing Readers create the kind of primary classrooms where that happens
