Power to the Players Rob Smat, 2023-11-21 The sea shanties YOLO s and red bandanas aren t even half of the GameStop story Did you know Robinhood didn t initiate their infamous trading halt Did you know why Redditors refer to 2021 as the sneeze rather than the squeeze Did you know that shares in your brokerage account might be counterfeits If not buckle up Witness firsthand the real and utterly ludicrous hivemind that brought Wall Street to its knees in January 2021 and find out why GameStop was only the beginning of an even more unprecedented retail contagion one which will challenge everything you think you know about our markets all over again If the meme mania of 2021 drew blood from Wall Street what follows is the Shakespearean realization that Reddit s blade was in fact poisoned In a digital world of frequently deleted revised and buried information accurately piecing together events as they occurred is nearly impossible Other authors and journalists have understandably struggled but not author Rob Smat who has been a witness to every part of the GameStop phenomenon having lived it himself *Power to the Players* is as much an unabridged history of the GameStop sneeze as it is a roadmap of how retail traders regrouped in the months and years that followed when everyone else thought the story had ended in calamity The truest of diamond hands never sold and their power has only grown stronger since Before Redditors were only a nuisance to the status quo Now they

Youth

Digital Health and Online Platforms Martyna Gliniecka, 2024-12-27 Youth Digital Health and Online Platforms focuses on young people's use of the digital platform Reddit for health. Drawing upon dialogism theory, the book explores how young people produce a youth-led discourse of youth digital health, different from the adult-led framing represented in youth digital health research, policy, and service delivery. Peer-led discussions online remain one of the controversial forms of youth digital health, associated with negative peer influence or casual teenage talk. This book argues that online peer-led dialogues support young people's agency in health and that young people can benefit from dealing with health issues with peers. The work is based on the digital ethnography of teenagers' subreddits on Reddit and utilises a theoretical framework of dialogism, a linguistic-based theory originated by an early 20th-century Russian philosopher Mikhail Bakhtin. The book introduces the concept of dialogical youth-led youth digital health discourse formed in the peer-led space of Reddit. This youth-led discourse celebrates equality and diversity amongst people, meanings, and opinions. It is constructed around three relational elements: socio-material affordances, creative practices, and a plurality of youth voices. Reddit's pseudonymous, anti-authoritarian, and egalitarian nature supports the emergence of this youth-led discourse. The book can interest scholars and lecturers in childhood and youth studies, Internet studies, and youth health studies. Professionals such as policymakers, service designers, deliverers, online safety educators, and global youth and health agencies can use evidence-based insights in their work with young people.
