You Should Quit Reddit Jacob Desforges, 2023-02-21 In recent years countless books articles and documentaries have addressed the negative effects that social media platforms have wrought on their users and society However these former works are incomplete nearly no attention has been paid to Reddit one of the most popular websites in the world Reddit is certainly unique among social platforms but its potential for addiction and darker side of nefarious activity should absolutely not be understated Additionally nearly no actionable advice has been provided to users of these platforms The audience is told that these websites and apps are harming their mental health wasting their time and that they are addictive which would logically make the task of quitting rather difficult but then provided zero guidance on how to disconnect from them Over 200 000 users gather on Reddit's r/NoSurf community to discuss reducing their internet use the forum is filled with reports of people who want to quit Reddit but find themselves psychologically compelled to return to the site over and over For moderate to heavy users of these platforms quitting is clearly not so simple You Should Quit Reddit is a paradigm shift in the genre Jacob Desforges was a Reddit user of over a decade and a self admitted Reddit addict who spent on average around three hours daily on the site Not only is this the first book investigating Reddit's flaws as a platform but it is also written from the perspective of someone who experienced firsthand the struggle that comes with quitting these addictive platforms This book therefore also provides readers with the practical advice tools and techniques needed to shatter the cycle of digital addiction enabling them to quit visiting Reddit and other time wasting websites for good so they can effectively reclaim their time to use in a more intentional manner

Proceedings of IEMTRONICS 2024 Phillip G. Bradford, S. Andrew Gadsden, Shibani K. Koul, Kamakhya Prasad Ghatak, 2025-01-24 This book gathers selected research papers presented at IEMTRONICS 2024 International IoT Electronics and Mechatronics Conference held during 3-5 April 2024 in London United Kingdom in hybrid mode This book presents a collection of state of the art research work involving cutting edge technologies in the field of IoT electronics mechatronics and related areas The work is presented in two volumes

On the Move to Meaningful Internet Systems: OTM 2018 Workshops Christophe Debruyne, Hervé Panetto, Wided Guédria, Peter Bollen, Ioana Ciuciu, Robert Meersman, 2019-02-06 This volume constitutes the refereed proceedings of the Confederated International International Workshop on Enterprise Integration Interoperability and Networking EI2N Fact Based Modeling FBM Industry Case Studies Program ICSP and International Workshop on Methods Evaluation Tools and Applications for the Creation and Consumption of Structured Data for the e Society Meta4eS held as part of OTM 2018 in October 2018 in Valletta Malta As the three main conferences and the associated workshops all share the distributed aspects of modern computing systems they experience the application pull created by the Internet and by the so called Semantic Web in particular developments of Big Data increased importance of security issues and the globalization of mobile based technologies

The Cryptopians Laura Shin, 2022-02-22 The story of the idealists technologists and opportunists fighting to bring cryptocurrency to the masses In their short history Bitcoin and other cryptocurrencies have gone through booms busts and internecine wars recently reaching a market valuation of more than 2 trillion The central promise of crypto endures vast fortunes made from decentralized networks not controlled by any single entity and not yet regulated by many governments The recent growth of crypto would have been all but impossible if not for a brilliant young man named Vitalik Buterin and his creation Ethereum In this book Laura Shin takes readers inside the founding of this novel cryptocurrency network which enabled users to launch their own new coins thus creating a new crypto fever She introduces readers to larger than life characters like Buterin the

Web3 wunderkind his short lived CEO Charles Hoskinson and Joe Lubin a former Goldman Sachs VP who became one of crypto's most well known billionaires Sparks fly as these outsized personalities fight for their piece of a seemingly limitless new business opportunity This fascinating book shows the crypto market for what it really is a deeply personal struggle to influence the coming revolution in money culture and power

Price Manipulation in the Bitcoin Ecosystem Erman Yilmaz, To its proponents the cryptocurrency Bitcoin offers the potential to disrupt payment systems and traditional currencies It has also been subject to security breaches and wild price fluctuations This paper identifies and analyzes the impact of suspicious trading activity on the Mt Gox Bitcoin currency exchange in which approximately 600 000 bitcoins BTC valued at 188 million were fraudulently acquired During both periods the USD BTC exchange rate rose by an average of four percent on days when suspicious trades took place compared to a slight decline on days without suspicious activity Based on rigorous analysis with extensive robustness checks the paper demonstrates that the suspicious trading activity likely caused the unprecedented spike in the USD BTC exchange rate in late 2013 when the rate jumped from around 150 to more than 1 000 in two months

Token Economy Shermin Voshmgir, 2025-04-20 The third edition of Token Economy is not just an update it is a reworking of a foundational book that has helped thousands make sense of how Bitcoin and other blockchain networks like Ethereum or Solana are reshaping our digital financial and political systems The book serves as an excellent primer for understanding the key aspects of the technological infrastructure as well as the decentralized applications built on top of it from DeFi to various token types and decentralized organizations It also explains the difference between DeFi CeFi and TradFi why blockchain networks can be considered the backbone of Web3 and the increasing role of AI This edition adds many practical use cases blending history systems theory and real world use cases to demystify everything from Bitcoin to Tokens and DAOs It explains how blockchain architecture token design and incentive mechanisms intersect with regulation politics and economics You'll learn how crypto rewrites money what stablecoins actually do how DAOs govern digital communities and why many token ecosystems fail not because of code but because of incentives and governance If you're learning building investing teaching or regulating in Web3 this book offers critical clarity in a field full of jargon As a longtime voice of clarity in the crypto world the author Shermin Voshmgir weaves together historical analysis technical insight and interdisciplinary critique in a way that makes complex systems both legible and accessible The third edition includes many more use cases than previous editions and reflects a maturing industry one where many early promises of decentralization have collided with the realities of centralization custody risk regulatory capture and broken incentive design While many books on crypto focus on trading or superficial overviews the book remains rooted in systems thinking and long term relevance

What This Book Offers A holistic framework for understanding Web3 infrastructure including blockchain architectures consensus mechanisms privacy scalability and the economics of decentralization A critical exploration of money and tokenization offering both historical context and future scenarios It asks hard questions about whether cryptocurrencies

and stablecoins can replace fiat money and explains how financial literacy remains the first line of defense against fraud and hype A grounded analysis of decentralized autonomous organizations DAOs and purpose driven tokens using real world case studies of protocols like Bitcoin Helium Ocean Protocol and MakerDAO A design thinking framework for evaluating token incentives governance structures and stakeholder dynamics bridging political science economics cybernetics and complex systems theory Whether you re a builder policymaker regulator academic investor or simply crypto curious Token Economy will help you Understand the difference between hype and real infrastructure Explore the incentives and governance dynamics embedded in every protocol Make better decisions around investing building or regulating digital assets Bridge the gap between idealism and realism in Web3

Communication, Networks and Computing Ranjeet Singh Tomar,Shekhar Verma,Brijesh Kumar Chaurasia,Vrijendra Singh,Jemal H. Abawajy,Shyam Akashe,Pao-Ann Hsiung,Ramjee Prasad,2023-09-26

Following the Ticker Ian G. Anson,2023-03-01 Drawing on a wide variety of empirical methodologies including large scale survey analysis survey experiments and content analyses Following the Ticker explores the complex relationship between stock market performance and political judgments through distinctive patterns of coverage in American news media Building an eclectic theory that explores the interplay between media agenda setting and partisan motivated reasoning author Ian G Anson helps to explain why the stock market increasingly occupies the minds of Americans when they evaluate

the performance of incumbent presidents In doing so Following the Ticker contributes to a growing literature exploring the links between public opinion and economic inequality in American society Because the stock market is not the economy the increasing salience of the stock market as a source of political judgments reflects a worrying development for classic models of democratic accountability

Digital Geography Maxim Bakaev,Radomir Bolgov,Anna Chizhik,Andrei Chugunov,Yury Kabanov,Elakkiya R.,Roberto Pereira,Wei Zhang,2025-09-26 This proceedings book collects contributions from the Internet and Modern Society conference in 2024 The gathering addresses topical issues of digital geography and the geography of information society providing a platform for discussion and collaboration between experts in related fields Participants from all over the world consider the controversies and challenges posed by digital technologies in society This volume centers on three core themes interactive systems and information society technologies e governance and political communication and art and innovation in museums
