The New Testament Scholarship of Erasmus Desiderius Erasmus,2019-03-26 Erasmus produced his five editions of the New Testament in Greek and Latin and his Paraphrases on the Gospels and Epistles almost contemporaneously with the tumultuous events that accompanied the beginnings of the Reformation in Europe At the same time his scholarship was a signal illustration of the Christian Humanism of northern Europe His remarkable scholarship is translated and annotated in the Collected Works of Erasmus volumes 42 60 published by the University of Toronto Press This volume CWE 41 seeks to set in perspective in a major introductory essay the full range of that scholarship It traces the origin of Erasmus work and its development over the course of the last two decades of his life placing the work on the New Testament in the context of his life and the political and religious events of his age revealing the endeavour as a process and thus giving the reader illuminating points of reference for the many cryptic allusions in his annotations and paraphrases The

book includes an annotated translation of three of Erasmus major writings on Scripture and its interpretation the Paraclesis the Ratio verae theologiae System of True Theology and the Apologia defense of his work It includes as well some of his further attempts to clarify his endeavour relevant letters and a vitriolic response to his crabby critics Contra morosos The volume offers a unique insight into the production of Erasmus scholarship in book form illustrating abundantly the special features that made his editions of the New Testament and his Paraphrases both esthetically pleasing and effectively marketable products

Directory of Research Grants 2008 Schoolhouse Partners Llc,2008-05 It was the 50s and life was simple until September 25 1954 That was the night that would be etched in the memory of the citizens of Stanfield Massachusetts The Chief of Police described the brutal savagery of the double homicide as the most atrocious crime in the history of the city A fourteen year old girl and the four year old boy in her care were murdered at the hands of a deranged depraved killer A Thread of Evidence places the reader at the scene of the crime an eye witness to the senseless stabbing of two innocent children With a piece of crochet thread as their only clue the entire police department lead by detectives Steven Logan and Raymond Gage scour the city in search of a maniacal savage When all tips and leads have been exhausted they review all evidence They come back to the thread The only real evidence With tenacity and perseverance of Logan and Gage the killer is apprehended The reader experiences the twists and turns of the investigation and ultimately occupies a reserved seat in the Superior Court as the trial proceedings commence A Thread of Evidence has been written as fiction but inspired by an actual event Fifty years later it remains etched in the minds of all who had lived in the area The author has researched court records newspapers interviewed neighbors police and has drawn on personal recollections of the crime The story has been recounted over and over and to this day it continues to be discussed A Thread of Evidence is a compelling account of superb detective work and unprecedented dedication of an entire police department

Winning Grants Sean Ekins,2023-06-12 As an academic or a small business owner you will need to write grants at some point in your career Writing them though is not enough what you also need to know is how to win grants Much has been written about writing grants the mysterious special ability called grantsmanship so it occurred to me that there is a need to come at this differently and spill the beans The difficulty in getting a grant in particular an NIH grant like an R01 in the USA is often described it is competitive and gets tougher every year Your proposal therefore must stand out it must connect with the reviewers This is true for all types of grants give the reviewer what they want always But also you need to connect to the program officer the committee that ultimately makes funding decisions and you must take care of a myriad of other details outside of the main event which is describing the science This means you cannot rely on just out writing the competition it is more than that as you have to out think out strategize and out schmooze them If you have been continually funded for decades that is terrific but if you want to keep being funded there is no guarantee what got you there will keep you there What was a hot technology 4 5 years ago is not the new thing anymore you will need to do something different but what You therefore need to not only

think about writing great grants you need to put it into practice and win them Having written and won grants from the NIH and DOD over the past 17 years and longer by the time you read this I possess a valuable perspective Each grant and study section will be different Whether a big or small grant it does not seem to make a difference the reviewers will critique your efforts they may not like it they may reject your ideas or they may love it You have some small degree of control until the proposal leaves your hands or more correctly you click submit You will need to differentiate your grant from the hundreds of others in many ways but you cannot change who you are your history so how you describe yourself and team will also have an impact You could spend hundreds of hours on your proposal or just a day and the outcome might still be the same This small book is a summary of my own personal experiences and will provide some advice that will help you learn how to do a better job of winning grants This book is written by a scientist who writes the grants and develops commercial products Provides a unique perspective on what you need to write better grants Teaches you how to continually win grants This book provides examples from the authors own grant applications The reader will be inspired to start a company to win small business grants
