The Encyclopedia of Best Films Jay Robert Nash, 2019-10-23 This all inclusive A Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5 000 three to five star entries: three stars good, four stars excellent, five stars masterpiece, and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre, i.e. animated, drama, sports, mystery, adventure, etc. as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

Marcus, 2015-07-08 LAUGH LEARN This bestselling book is a collection of amusing anecdotes and useful advice on a wide range of subjects: money, relationships, parenting, business, work, cars, food, drink, life, death, education, health, technology, media, aging, time, animals, baseball, sailing, sex, writing, publishing, and law. The book is the sad and also humorous and helpful story of what the author did wrong over a lifetime and what he learned from his mistakes plus what he learned from observing other people, companies, animals, and events. Marcus often fantasizes about traveling back in time to warn himself not to make stupid mistakes. He says: "The ten, twenty, and sixty-year-old me might have ignored the advice of parents, teachers, doctors, and accountants, but not the advice of me. If I talk to myself, I have to listen. While technology will not yet allow me to go back and talk to myself, I can warn and advise anyone else who's willing to pay attention. That's why I wrote this book. And maybe by looking back, I can influence my own future." New York Magazine, 1982-10-25

Kimitsu emerges as a unique voice from the Japanese ghetto, a self-educated philosopher whose thoughts on life in the slums, on post-war Japanese society, and on more abstract intellectual concerns are conveyed in a series of conversations with British anthropologist Tom Gill, whose friendship with Kimitsu spans more than two decades. For Kimitsu, as for many of his fellow day laborers at the bottom of Japanese society, offers none of the comforting distractions of marriage, family life, or a long-term career in a settled workplace. It leads him through existential philosophy towards Buddhist mysticism as he fills the time between days of hard manual labor with visits to second-hand bookshops in search of enlightenment. The book also portrays Kimitsu's living environment, a Yokohama slum district called Kotobuki. Kotobuki is a *doya gai*, a slum inhabited mainly by men, somewhat similar to the skid-row districts that used to be common in American cities. Traditionally, these men have earned a basic living by working as day laborers, but the decline in employment opportunities has forced many of them into welfare dependence or homelessness. Kimitsu's life and thought are framed by an account of the changing way of life in Kotobuki, a place that has gradually been transformed from a casual laboring market to a large, shambolic welfare center. In Kotobuki, the national Japanese issues of an aging workforce and economic decline set in much earlier than elsewhere, leading to a dramatic
