Meditation practices for health state of the research ,2009 *Yogic intelligence: YI Vs Artificial intelligence: AI (Awakening of ancient wisdom to navigate our digital future)* Narayan Chandra Rout,2025-10-31 In the dance between entropy and intelligence we come to a humbling truth the mind though brilliant is not always wise And here s the kicker the

world it evolved for slow tribal grounded is gone We now live in a reality ruled by AI models digital dopamine and quantum leaps in computation The mind is playing in a stadium it was never built for As AI gets smarter faster and dissonantly aware of patterns we miss As quantum computing begins to rewrite what's possible in milliseconds our ancient biological mind feels more exposed than ever Soon machines won't just automate work they'll simulate thought mimic intuition and even outpace logic And the human mind If it stays untrained scattered reactive it risks becoming the weakest link in chain

The Oxford Handbook of Stress, Health, and Coping Susan Folkman, 2011 Few publications have changed the landscape of contemporary psychology more than Richard Lazarus and Susan Folkman's landmark work *Stress Appraisal and Coping*. Its publication in 1984 set the course for years of research on the dynamic processes of psychological stress and coping in human beings. Now more than a quarter century later *The Oxford Handbook of Stress Health and Coping* pushes the field even further with a comprehensive overview of the newest and best work in this dynamic subject. Edited by Susan Folkman and comprising chapters by the field's leading scientists, this new volume details the expanded knowledge base that has emerged from extensive research on stress and coping processes over the last several decades. Featuring 22 topic-based chapters, including two by Folkman, this volume offers unprecedented coverage of the two primary research topics related to stress and coping: mitigating stress-related harms and sustaining well-being in the face of stress. Both topics are addressed within their relevant contexts, including chronic illness, calamity, bereavement, and social hardship. *The Oxford Handbook of Stress Health and Coping* is an essential reference work for students, practitioners, and researchers across the fields of health, psychology, medicine, and palliative care.

for millions of years and the oldest religious art found in caves and on bones dates as far back as 30 000 years From earliest times and still today people share their ideas and form a group with others who have drawn similar conclusions about the meaning of life and the ultimate reality They might call their group a religion others might call it a cult But the name they give to their concept of God does not mean that they worship a different god only that they hold a different concept of the Source and Power of that which was is and always will be Every religion serves as a way of life an opportunity to practice ones accepted beliefs and a way to socialize with those who hold similar views Religions can be dictated but beliefs cannot They are private and unique to the individual It is ones own experience with that which he or she perceives as God that prompts the acceptance of a belief system quiet endurance when there seems to be no choice or the withdrawal from religion altogether Public and personal wars have been fought in the name of righteous indignation in support of different belief systems that came from efforts to answer the questions of life Many individuals have lived lives of frustration and confusion as a result of the commonly accepted belief system of the culture into which they were born In this study we look briefly at the historical and geographical conditions related to the emergence of specific religious views and the situation of the people whose lives are influenced by them Our intent is not to determine which religion is right or wrong Using a comparison point chart we examine the basic premises of each belief system and how the holding of a premise impacts the lives of those who live it as if it were true
