There are a number of things that we should be aware of when we are considering the use of a computer in a business. First, we should be aware of the fact that a computer is a tool, and it is not a magic wand. It can only do what we tell it to do. Second, we should be aware of the fact that a computer is a very expensive tool, and it can be very difficult to maintain. Third, we should be aware of the fact that a computer is a very powerful tool, and it can be used to do a great deal of good. Finally, we should be aware of the fact that a computer is a very complex tool, and it can be very difficult to use.
