Law and Business Lawrence S. Clark,Robert J. Aalberts,Peter D. Kinder,1994 This comprehensive business law text which features briefed cases combines traditional business law coverage with solid treatment of regulatory topics. It meets both AACSB legal environment and CPA exam preparation requirements. Rather than stress the mechanics of law Clark Aalberts Kinder conveys the complexity of the blend of factors that occurs when law is made and applied in resolving disputes. An easy to read style spares the students the impenetrable prose of other business law texts. Liberal use of flowcharts diagrams charts briefed cases and samples of legal instruments helps students learn. Cases are followed by insightful commentaries of sometimes controversial topics and present and analyze the actual political economic social and ethical forces that caused the conflict. A new co author Robert J Aalberts has been added for the fourth edition. The revision has more chapter problems and 67 new cases. The chapter on bailments which had been removed in the previous edition has been returned to Part V on property. A unique new A Note to CPA Candidates at the end of every chapter provides invaluable insights and perspective on what the exam emphasizes and trends have been. **VFW Auxiliary** ,1983
