aspects and scientific terms from closely related fields **Fixed** John Y. Campbell,Tarun Ramadorai,2025-10-21 Two leading

interact with the financial system every day whether taking out or paying off loans making insurance claims or simply
depositing money into our bank accounts Fixed exposes how this system has been corrupted to serve the interests of
financial services providers and their cleverest customers at the expense of ordinary people John Campbell and Tarun
Ramadorai diagnose the ills of today s personal finance markets in the United States and across the globe looking at
everything from short term saving and borrowing to loans for education and housing financial products for retirement and
insurance They show how the system is fixed to benefit those who are wealthy and more educated while encouraging
financial mistakes by those who are aren t making it difficult for regular consumers to make sound financial decisions and
disadvantaging them in some of the most consequential economic transactions of their lives Campbell and Ramadorai
describe how some even opt out of the financial system altogether relying on unregulated and often shady mechanisms to
implement necessary financial functions with dire consequences for individuals families and the economy more broadly With
the explosive growth of the global middle class longer lifespans and greater numbers of seniors managing their money alone
the pitfalls of personal finance now affect billions of people around the world Fixed proposes concrete solutions that
