Retailing is explored as both an economic and a cultural phenomenon, tracing retail strategies and business operations as they are reconfigured by retailers adapting to changing conditions, new technologies, government policies, and evolving markets. Relationships between the makers, sellers, and buyers of goods are shaped and reshaped as retailers large and small respond to competition and pursue new opportunities. Areas of continuity are identified even as businesses grow and strategies evolve. After four centuries, there are more retailers selling more merchandise in more ways to more customers. The mass consumption of goods and services is central to American and Canadian history, and understanding consumer society requires understanding retailing. Combining original research with recent scholarship in business and social history, cultural theory, and readings in current retail business strategy, this study provides a valuable resource for students and scholars in a wide range of fields and will appeal to general readers with an interest in retail shopping and consumerism. *The Times Index*, 2013-06 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Time educational supplement Scotland and the Times higher education supplement. *The New iPad Fully Loaded* Alan Hess, 2012-05-15 A comprehensive guide to using the iPad that explains how to use the tablet computer's main functions, highlights features such as remote desktop access, applications for travel, social media, and more, and offers troubleshooting tips. *Mediaweek*, 2010-04 *Professional iOS Network Programming* Jack Cox, Nathan Jones, John Szumski, 2012-10-23 Learn to develop iPhone and iPad applications for networked enterprise environments.
