the uniquely poignant Entertainment Weekly novel *The Blessings* comes a gripping story about three friends in their forties forced to reckon with their lives during a college reunion in coastal Maine. It's June 2021 and three old college friends are heading to New England and the twenty fifth reunion that was delayed the year before. Hope, a stay at home mom, is desperate for a return to her beloved campus, a reprieve from her tense marriage and the stresses of pandemic parenting. Adam is hesitant to leave his bucolic but secluded life with his wife and their young sons. Single mother Polly hasn't been back to campus in more than twenty years and has no interest in returning but changes her mind when her struggling teenage son suggests a road trip. But the reunion isn't what any of them had envisioned. Hope, always upbeat, is no longer able to downplay the pressures of life at home or the cracks in her longstanding friendships. Adam finds himself energized by the memory of his carefree, reckless younger self which only reminds him how much has changed since those halcyon days. Polly cannot ignore the ghosts of her college years including a closely guarded secret. When the weekend takes a startling turn, all three find themselves reckoning with the past and how it will bear on the future. Beautifully observed and insightful, *Reunion* is a page turning novel about the highs and lows of friendship from a writer at the height of her powers. [The Herd](#) Johan Anderberg, 2022-03-29

In the spring of 2020, as a new and deadly virus rapidly spread across the globe, the world shut down. But a small country in Northern Europe remained open. First, its government instituted no restrictions. Then it didn't order the wearing of face masks. While the rest of the world looked on with incredulity, condemnation, admiration, and even envy, a small country in Northern Europe stood alone. As Covid-19 spread across the globe rapidly, the world shut down. But Sweden remained open. The Swedish Covid-19 strategy was alternately lauded and held up as a cautionary tale by international governments and journalists alike, with all eyes on what has been dubbed *The Swedish Experiment*. But what made Sweden take such a different path? And did it work? In *The Herd*, journalist Johan Anderberg narrates this improbable story, guiding the reader through the history and practice of epidemiology and the ticking clock decisions that Sweden's pandemic response decision makers were faced with on a daily basis. Weaving past and present effortlessly, Anderberg has written a real life thriller about a nation dealing differently with a global crisis. **The 80-20 Money Makeover** Arun Kumar, 2024-04-25
