Weapons of Math Destruction Cathy O'Neil,2016-09-06 A manual for the 21st century citizen accessible refreshingly critical relevant and urgent Financial Times Fascinating and deeply disturbing Yuval Noah Harari Guardian Books of the Year In this New York Times bestseller Cathy O Neil one of the first champions of algorithmic accountability sounds an alarm on the mathematical models that pervade modern life and threaten to rip apart our social fabric We live in the age of the algorithm Increasingly the decisions that affect our lives where we go to school whether we get a loan how much we pay for insurance are being made not by humans but by mathematical models In theory this should lead to greater fairness everyone is judged according to the same rules and bias is eliminated And yet as Cathy O Neil reveals in this urgent and necessary book the opposite is true The models being used today are opaque unregulated and incontestable even when they re wrong Most troubling they reinforce discrimination Tracing the arc of a person s life O Neil exposes the black box models that shape our future both as individuals and as a society These weapons of math destruction score teachers and students sort CVs grant or deny loans evaluate workers target voters and monitor our health O Neil calls on modellers to take more responsibility for their algorithms and on policy makers to regulate their use But in the end it s up to us to become more savvy about the models that govern our lives This important book empowers us to ask the tough questions uncover the truth

and demand change In Pursuit of World-Class Universities Marcelo Rabossi, K.M. Joshi, Saeed Paivandi, 2018-03-10 The pursuit to construct world class universities is an ongoing global obsession across the world which lays emphasis on the development of competitive higher education and research systems as core national economic approach The portrayal world class is more contextual rather than absolute the expression world class university has an irrefutable cachet There is no solo clear cut definition of what organises a world class university WCU but there are few common attributes that majority of the experts point towards The three attributes stated by Philip Altbach and Jamil Salmi that focus on a high concentration of talent abundant resources and favourable governance have been widely discussed in writings and practice Both in developing and developed countries policymakers and higher education leaders are attempting to identify and outline their desires and plans aimed at achieving global ranking for their university universities Despite condemnation of the methodology the choice of indicators and weightings and the reliability and quality of data used for comparing performance the obsession for constructing world class universities has increased over the period of time But how much do we really discern or comprehend regarding the ranking systems What do the rankings really measure Do rankings measure the quality and help in attaining the broad assignment of higher education Does the competition as outcome of ranking raise standards Is the ranking system an apposite instrument to frame higher education policies This edited volume tries to look at the concept of world class universities in milieu of different countries of the world and explore their experiences either in existing WCUs or constructing WCU or attempting to create WCU The country based chapters show differentiated paths of achievements and their approach towards the concept of WCU **The Parent Compass** Cynthia Clumeck Muchnick, Jenn Bowie Curtis, 2020-09-15 Bragging rights and bumper stickers are some of the social forces fueling today's parenting behavior and as a result even well intentioned parents are behaving badly Many parents don't know how best to support their teens especially when everyone around them seems to be frantically tutoring managing and helicoptering The Parent Compass provides guidance on what parents roles should be in supporting their teens mental health as they traverse the maze of the adolescent years For anyone daunted by the unique challenge of parenting well in this pressure laden and uncertain era The Parent Compass offers Advice on fostering grit and resilience in your teen Strategies to help your teen approach life with purpose Guidance on how to preserve your relationship with your teen while navigating a competitive academic environment Clear explanations of your appropriate role in the college admission process Effective ways to approach technology use in your home and much more Using The Parent Compass to navigate the adolescent years will help you parent with confidence and intention allowing you to forge a trusting positive relationship with your teen The Alcalde, 1997-03 As the magazine of the Texas Exes The Alcalde has united alumni and friends of The University of Texas at Austin for nearly 100 years The Alcalde serves as an intellectual crossroads where UT's luminaries artists engineers executives musicians attorneys journalists lawmakers and professors among them meet bimonthly to exchange ideas Its pages also offer

Breaking Ranks Colin Diver, 2022-04-12 Some colleges will do anything to improve their national ranking That can be bad for their students and for higher education Since U S News World Report first published a college ranking in 1983 the rankings industry has become a self appointed judge declaring winners and losers among America s colleges and universities In this revealing account Colin Diver shows how popular rankings have induced college applicants to focus solely on pedigree and prestige while tempting educators to sacrifice academic integrity for short term competitive advantage By forcing colleges into standardized best college hierarchies he argues rankings have threatened the institutional diversity intellectual rigor and social mobility that is the genius of American higher education As a former university administrator who refused to play the game Diver leads his readers on an engaging journey through the mysteries of college rankings admissions financial aid spending policies and academic practices He explains how most dominant college rankings perpetuate views of higher education as a purely consumer good susceptible to unidimensional measures of brand value and prestige Many rankings he asserts also undermine the moral authority of higher education by encouraging various forms of distorted behavior misrepresentation and outright cheating by ranked institutions The recent Varsity Blues admissions scandal for example happened in part because affluent parents wanted to get their children into elite schools by any means necessary Explaining what is most useful and important in evaluating colleges Diver offers both college applicants and educators a guide to pursuing their highest academic goals freed from the siren song of the best college illusion Ultimately he reveals how to break ranks with a rankings industry that misleads its consumers undermines academic values and

perpetuates social inequality Higher Education in the Global Age Daniel Araya, Peter Marber, 2013-11-20 Discussions on globalization now routinely focus on the economic impact of developing countries in Asia Africa the Middle East the former Soviet Union and Latin America Only twenty five years ago many developing countries were largely closed societies Today the growing power of emerging markets is reordering the geopolitical landscape On a purchasing power parity basis emerging economies now constitute half of the world's economic activity Financial markets too are seeing growing integration Asia now accounts for 1/3 of world stock markets more than double that of just 15 years ago Given current trajectories most economists predict that China and India alone will account for half of global output by 2050 almost a complete return to their positions prior to the Industrial Revolution How is higher education shaping and being shaped by these massive tectonic shifts As education rises as a geopolitical priority it has converged with discussions on economic policy and a global labor market As part of the Routledge Studies in Emerging Societies series this edited collection focuses on the globalization of higher education particularly the increasing symbiosis between advanced and developing countries Bringing together senior scholars journalists and practitioners from around the world this collection explores the relatively new and changing higher education landscape **Impact of Global University Ranking Systems on Developing**

Countries Onyancha, Omwoyo Bosire, Tella, Adeyinka, 2023-06-01 The emotive discourses on the subject of university rankings are directly linked to the effect of such rankings on the performance of universities throughout the world It has been observed that the top ranked universities attract major financial commitments from the industry the best students quality researchers and a wide range of other quality endowments such as equipment libraries and laboratories It is not surprising that the ranking of universities has gained popularity and become a significant factor shaping not only the reputation of universities but also the performance of said institutions around the world including the developing countries Impact of Global University Ranking Systems on Developing Countries presents a collection of perspectives from scholars and other stakeholders on the impact of the global ranking systems on developing countries The book is an additional resource for discussion and discourse as far as the global university ranking systems are concerned and opens new frontiers for further research Covering key topics such as assessment ethics and academic freedom this premier reference source is ideal for administrators policymakers researchers scholars academicians practitioners instructors and students **World University Rankings and the Future of Higher Education** Downing, Kevin, Ganotice, Jr., Fraide A., 2016-10-06 Delivering quality education to students while remaining competitive at an international level is only one of the many challenges universities face today To attain their goals universities must adopt new strategies to achieve academic excellence World University Rankings and the Future of Higher Education is a pivotal reference source for the latest scholarly research on the implementation of a ranking system for higher education institutions providing a thorough overview of the impacts of these rankings on educational quality Exploring the benefits and challenges of this system in a global context this book is ideally

designed for academicians researchers students administrators and policy makers interested in the effects of university rankings in the education sector and beyond

The Chosen Jerome Karabel, 2005 Drawing on decades of research Karabel shines a light on the ever changing definition of merit in college admissions showing how it shaped and was shaped by the country at large

Rankings and Accountability in Higher Education: Uses and Misuses Priscilla Toka Mmantsetsa Marope, Peter J. Wells, Unesco, Ellen Hazelkorn, 2013-01-01 The growing impact of university rankings on public policy and on students choices has stirred controversy worldwide This unique volume brings together the architects of university rankings and their critics to debate the uses and misuses of existing rankings With voices from five continents it provides a comprehensive overview of current thinking on the subject and sets out alternative approaches and complementary tools for a new era of transparent and informed use of higher education ranking tables

Computing the News Sylvain Parasio, 2022-10-11 Faced with a full blown crisis a growing number of journalists are engaging in seemingly unjournalistic practices such as creating and maintaining databases handling algorithms or designing online applications Data journalists claim that these approaches help the profession demonstrate greater objectivity and fulfill its democratic mission In their view computational methods enable journalists to better inform their readers more closely monitor those in power and offer deeper analysis In *Computing the News* Sylvain Parasio examines how data journalists and news organizations have navigated the tensions between traditional journalistic values and new technologies He traces the history of journalistic hopes for computing technology and contextualizes the surge of data journalism in the twenty first century By importing computational techniques and ways of knowing new to journalism news organizations have come to depend on a broader array of human and nonhuman actors Parasio draws on extensive fieldwork in the United States and France including interviews with journalists and data scientists as well as a behind the scenes look at several acclaimed projects in both countries Ultimately he argues fulfilling the promise of data journalism requires the renewal of journalistic standards and ethics Offering an in depth analysis of how computing has become part of the daily practices of journalists this book proposes ways for journalism to evolve in order to serve democratic societies

Higher Education Marketing in Africa Emmanuel Mogaji, Felix Maringe, Robert Ebo Hinson, 2020-05-20 This book explores the key players challenges and policies affecting higher education in Africa It also explores the marketing strategies and the students selection process providing theoretical and practical insights into education marketing in Africa In particular it focuses on the competition for students The growing number of student enrolments the public sector s inability to meet the ever increasing demands and new private universities springing up mean that it is essential for universities to identify their market and effectively communicate their messages Although there has been substantial theoretical research to help shed light on students choices and universities marketing strategies little work has been undertaken on higher education in the African context Filling that gap in the research while at the same time acknowledging the regional differences in Africa this book offers empirical insights into the higher education

market across the continent
