Digital Consumers David Nicholas, Ian Rowlands, 2008 The information professions librarianship archives publishing and to some extent journalism have been rocked by the digital transition that has led to disintermediation easy access and massive information choice Professional skills are increasingly being performed without the necessary context rationale and understanding Information now forms a consumer commodity with many diverse information producers engaged in the market It is generally the lack of recognition of this fact amongst the information professions that explains the difficulties they find themselves in There is a need for a new belief system that will help information professionals survive and engage in a ubiquitous information environment where they are no longer the dominant players nor indeed the suppliers of first choice The purpose of this thought provoking book is to provide that overarching vision built on hard evidence rather than PowerPoint puff The authors of the acclaimed CIBER Google Generation study and an international cross sectoral team of contributors has assembled together for this purpose Key strategic areas covered include the digital consumer an introduction and philosophy the digital information marketplace and its economics the end of exclusivity the e shopper the growth of the informed purchaser the library in the digital age the psychology of the digital information consumer the information seeking behaviour of the digital consumer case study the virtual scholar the Google generation myths and realities about young people's digital information behaviour trends in digital information consumption and the future where do we go from here Readership No information professional or student can afford not to read this far reaching and important book

Agenda Setting in a 2.0 World Thomas J. Johnson, 2013-07-24 This volume explores agenda setting theory in light of changes in the media environment in the 21st century In the decades since the original Chapel Hill study that launched agenda setting research the theory has attracted the interest of scholars worldwide Agenda Setting in a 2.0 World features the work of a new generation of scholars The research provided by these young scholars reflects two broad contemporary trends in agenda setting A centrifugal trend of research in the expanding

media landscape and in domains beyond the original focus on public affairs and a centripetal trend further explicating agenda setting's core concepts Strategic Retail Management and Brand Management Doris Berger-Grabner, 2021-10-25

The retail industry and associated business models have gone through a significant phase of disruption. The rapid emergence of new technologies, digital business models, and the evolution of social media platforms as a new sales channel continue to influence the sector. Key contextual or external trends will affect and shape the retail landscape in the years to come. Therefore, it seems important to prepare for this situation and be ready with a head start in terms of knowledge. This textbook provides its readers basic knowledge about the national and international retail sector and gives important insights into trends and developments. It deals with key trends in particular new patterns of personal consumption, evolving geopolitical dynamics, technological advancements, and structural industry shifts. Moreover, it explains why it is so important that retailers use these trends, adapt their retail strategies and tactics, create strong brands, and come up with innovative new ways of doing business. Today we are living in a challenging time for retail. This textbook tries to give insights and explanations to better understand these challenges and provide managerial implications **Checking Out with the Payment Request API** Alex Libby, 2019-09-13

Quickly create consistent checkouts for use within websites using the power of the HTML5 Payment Request API. This project-oriented book simplifies the process of creating and manipulating checkouts with the Payment Request API in browsers for websites or online applications using little more than a text editor or free software. One of the key concerns of any e-commerce company is ensuring customers complete the checkout process successfully and for them to return. Unfortunately, many checkouts still suffer from a high level of drop-out. The Payment Request API is an open standard being developed by browser vendors to simplify payments for users with a quick and seamless autofill process, enabling a broader set of online payment providers to participate in the market. The API is designed to be easy to implement across all supported browsers and work with any payment type or service provider. **Checking Out with the Payment Request API** equips you with a tool set that you can use to develop future projects, incorporate into your existing workflow, and allow you to reduce any dependency on complex custom-made checkouts that might be prone to failure or unwieldy to use. You'll learn how to use the Payment Request API to create consistent checkouts quickly and easily and work through practical example projects that will help familiarize you with using the API. We live in an age where speed and accuracy are of the essence; add effortless flow to your payments using this book today. What You'll Learn: Implement the Payment Request API in a project; Explore some of the options for personalizing it for a project; Gain an appreciation of pointers around user experience and how this affects the API; Understand how to manage issues and security when using the Payment Request API; Work through some example projects from standalone demos to implementing in frameworks. Who This Book Is For: Website developers familiar with creating shopping carts and looking to leverage the HTML5 Payment Request API. Also ideal for those in agile development teams who want to focus on simplifying content in modern browsers using their existing tools.
