Turning Learning into Action Emma

Weber, 2014-03-03 Learning transfer is the missing link in training Using conventional approaches to training an average of
just 10-20% of learning makes it back into the workplace and contributes to better business outcomes With the current
increased emphasis on efficiency and cost effectiveness such a dismal record is no longer acceptable To improve these
statistics and to make training truly valuable we must recognise that successful learning is not just about good content and
well executed programmes but also about finding ways to facilitate genuine behavioural change and accountability back in
the workplace Turning Learning into Action provides the necessary tools to enable trainers buyers of training and L D
professionals to do just this It presents the new proven TLA methodology which acknowledges the important role of ADDIE in
the instructional design process but takes learning a step further TLA focuses on the fact that to generate significant
behavioural change consistent systematic follow up after the training event is critical
